

The background features a dark blue gradient with a subtle pattern of white dots. Overlaid on this are several circular elements: a large scale on the left with numbers from 140 to 260, and several smaller circles with dashed lines and arrows, suggesting motion or cycles.

AGE HARMONICS

THE BEST TIMER FOR EVENTS
I HAVE EVER FOUND

I first learned Age Harmonics from Dymock Brose who, in turn, learned the technique from Ross Harvey, who, as far as I know, invented it.

Dymock had a system of tests that he sent all over the world as he wanted to find the best predictive and timing technique available. Once he implemented Age Harmonics, he found the ability to pick the right event from the five or so test cases presented each month, increased dramatically amongst the astrologers who participated.

He was such a generous astrologer – he taught me the techniques free of charge and sent me the tables he had worked out to help me calculate.

Later, the procedure was made available on Solar Fire and has made this system so easy to work with and further increased its accuracy.

- Year Age Harmonics are very easy to calculate on Solar Fire:
- Highlight the chart you want to use
- Click Chart on top left hand menu
- Then click Harmonic/Transform
- Then click Harmonic Chart
- Under Harmonic on center right side, put in the age you wish.
- Click OK and the Year Age Harmonic will be calculated.

- If you wish to calculate the Day Age Harmonic chart
- Go to the Chart Options Menu, click it , then click Displayed Points
- Highlight the displayed points you usually use and click Edit
- Add IC, Descendant, antiVertex to the displayed points and click Save and then Select
- In the Calculated charts menu highlight the chart you wish to use
- Go to the Chart Menu on the top left, click it
- Go to Harmonic/Transform, click it
- Under Chart type to generate go to Harmonic Age
- In the Progress Base chart menu, put in the date, time and place you wish to use.
- Click OK and the day age harmonic for the person will appear on your calculated charts menu.

There is some controversy as to whether to use Harmonic Age + 1 or Harmonic Age, but Harmonic Age is the correct one as it is so accurate – as I will demonstrate.

The system is designed to take all planets back to 0 Aries, then gradually unfold the planets and angles until age 1, when they all return to the positions in the birth chart.

YEAR AGE HARMONICS

RHYTHMS:

From the moment of our first breath in this world our physical, emotional, mental and spiritual bodies are continually assimilating information, which leads to continuous growth and development of our psyche.

In astrology one of the methods of mapping this continuous movement and development is Age Harmonics—even to the finest fractions of internal daily movement.

Each year of life emphasises and unfolds one of the harmonics and their multiples:-

The period between 0-1 opens and develops harmonic fractions

Between 1-2 opens and develops the 1st harmonic, the conjunction

Between 2-3 opens and develops the 2nd harmonic, the opposition

Between 3-4 opens and develops the 3rd harmonic, the trine

Between 4-5 opens and develops the 4th harmonic, the square

Between 5-6 opens and develops the 5th harmonic, the quintile

Between 6-7 opens and develops the 6th harmonic, the sextile

Between 7-8 opens and develops the 7th harmonic, the septile

Between 8-9 opens and develops the 8th harmonic, the semi-square

Between 9-10 opens and develops the 9th harmonic, the novile

Between 10-11 opens and develops the 10th harmonic, the decile

Between 11-12 opens and develops the 11th harmonic, the undecile

Between 12-13 opens and develops the 12th harmonic, the semisextile and quincunx

You can do harmonic charts for each of these years to see how the aspects are being developed by the child.

To illustrate, let's look at the 4th harmonic chart for King Charles as his mother was crowned Queen that year.

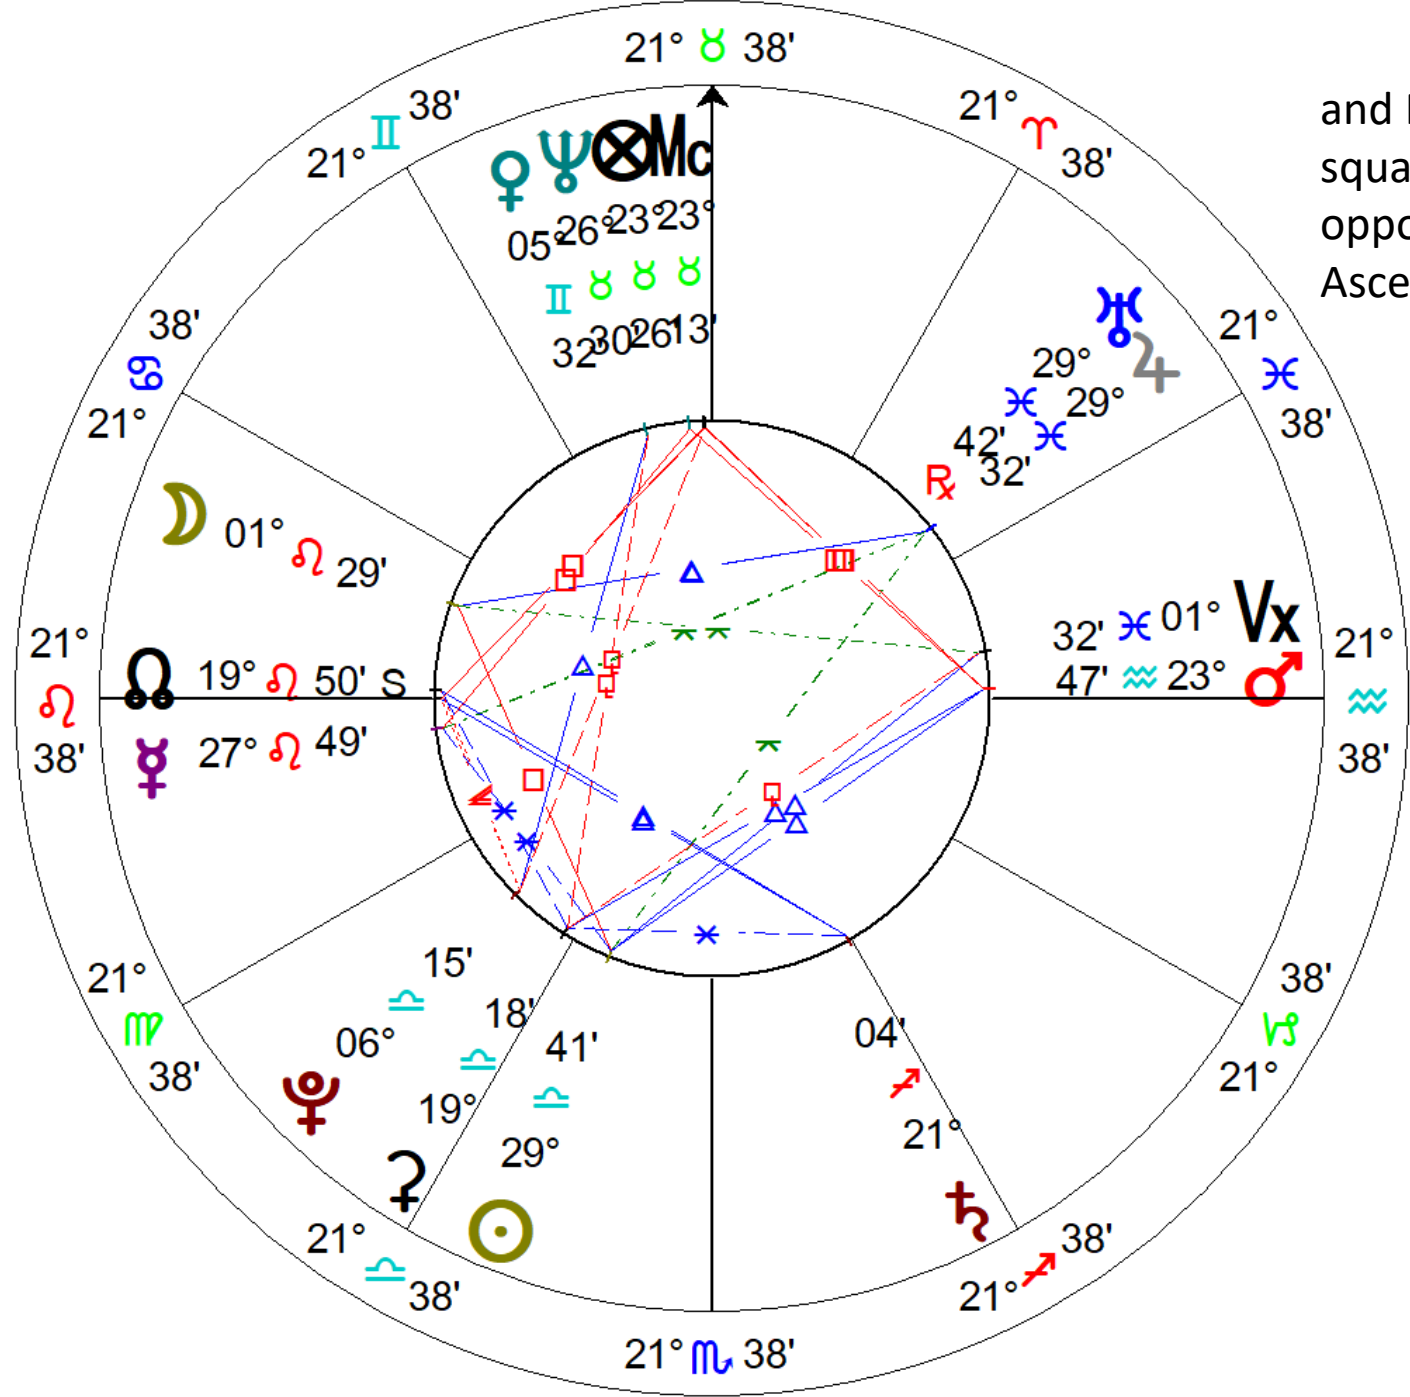

But first, here is his natal chart with fourth harmonic aspects (Squares)

- In the fourth harmonic chart, planets in square and opposition to each other move into a conjunction. The tighter the orb in the natal chart, the closer the conjunction in the harmonic chart.

 Rating: AA

Here is his 4th Harmonic chart.

- Note the MC is conjunct Part of Fortune and Neptune; this was a global event (Neptune) which officially made him heir to the throne.
- The MC/POF is opposite his natal Sun
- Leo is rising with the North Node and Mercury (drama, royalty).
- The Sun is quincunx Jupiter/Uranus; the quincunx always shows a year of change.

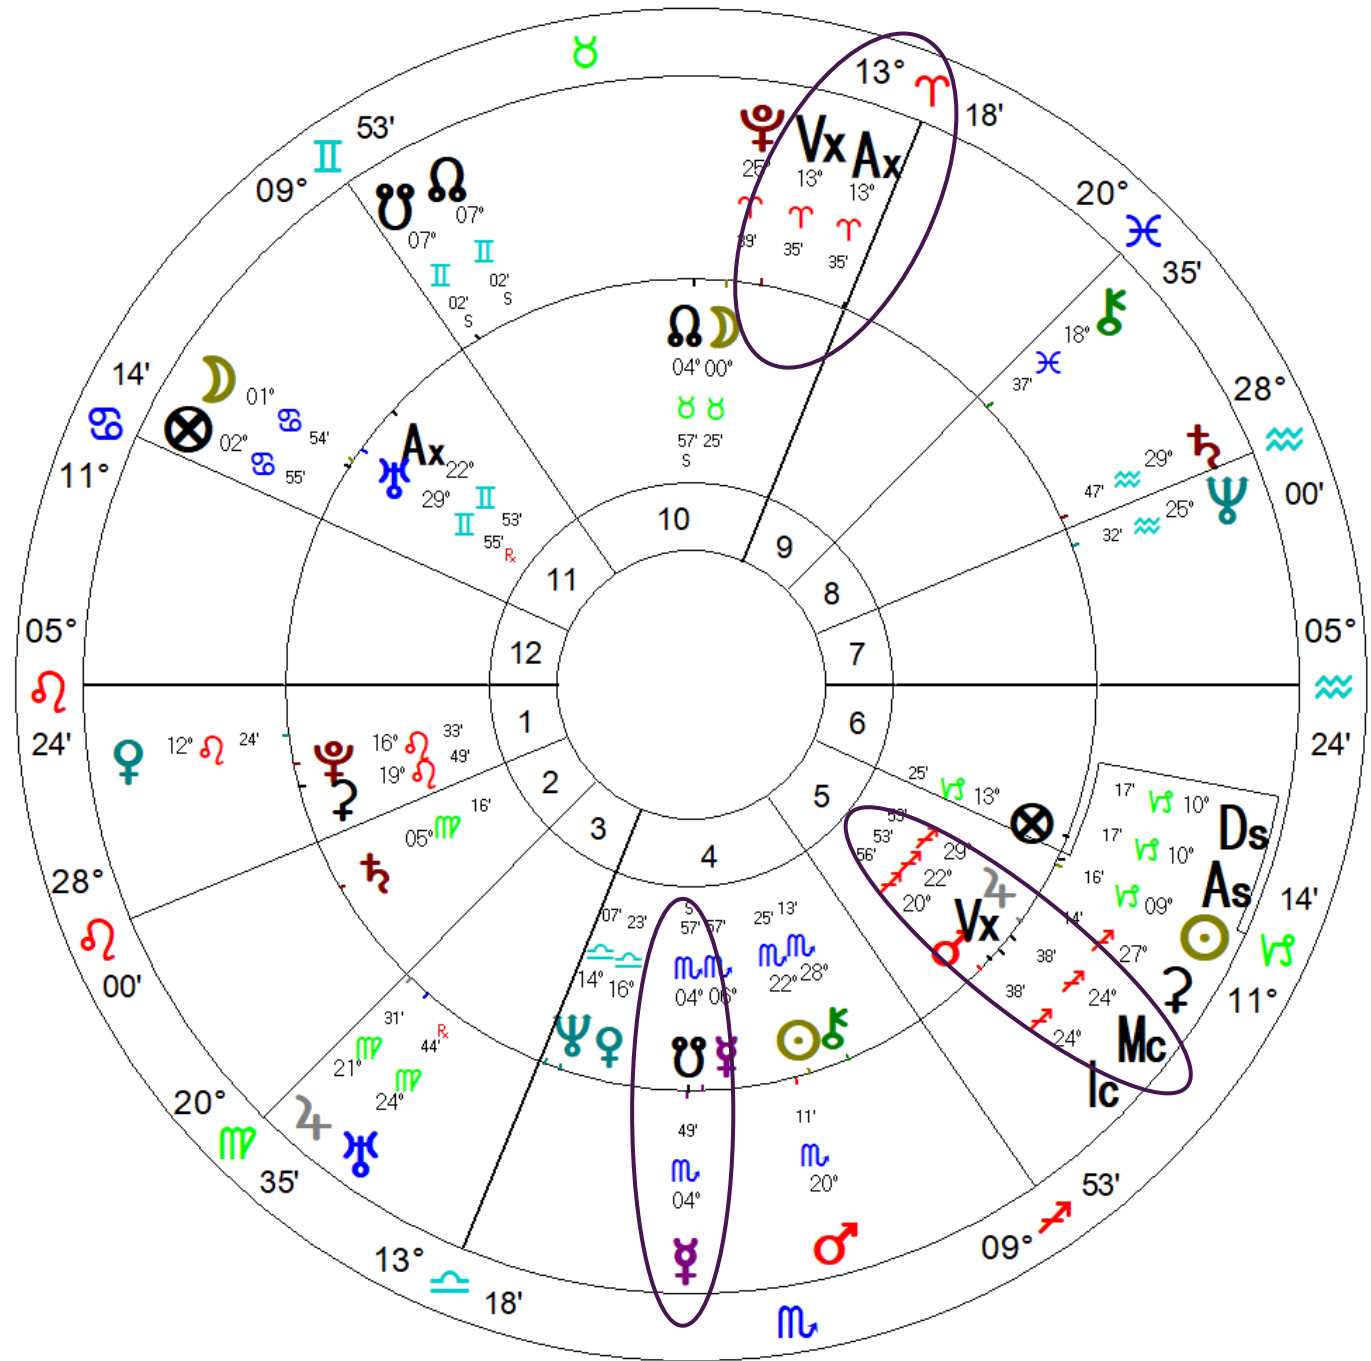

and Mars squares MC and opposes Ascendant.

70 Years after his mother's coronation,
King Charles was crowned himself.

Does his 74th Age Harmonic show this
event?

When you put the Age Harmonic chart around the outside of the natal chart you can see:

- The Vertex conjunct the MC – a year of destiny connected to his career.
- The Age Harmonic MC is conjunct natal Vertex with a 1 degree 45 minute orb.

- Age Harmonic Mars, the ruler of his natal MC, is conjunct his natal Sun.
- Age Harmonic Mercury is conjunct his South Node and Mercury.

- 
- The background features a dark blue gradient with faint, glowing star patterns. Overlaid on this are several semi-transparent, light blue circular diagrams that resemble astrological charts or horoscopes. These diagrams include concentric circles, radial lines, and some numerical markings, such as '180', '190', '200', '210', '150', '160', '170', '120', '110', '100', '90', and '80'. Some of the diagrams also have small arrows or markers pointing to specific points.
- Age Harmonics can be read like Solar Returns, and if you have an exact time of birth, they are very accurate.
 - As you have seen, they are most powerful when connected to the natal or radix chart.
 - In Year Age Harmonics you can use about a five degree orb in connection to the natal chart, the closer the orb the more powerful the connection.
 - Transits or lunations triggering the connective points between Age Harmonics and natal chart tend to produce strong reactions.

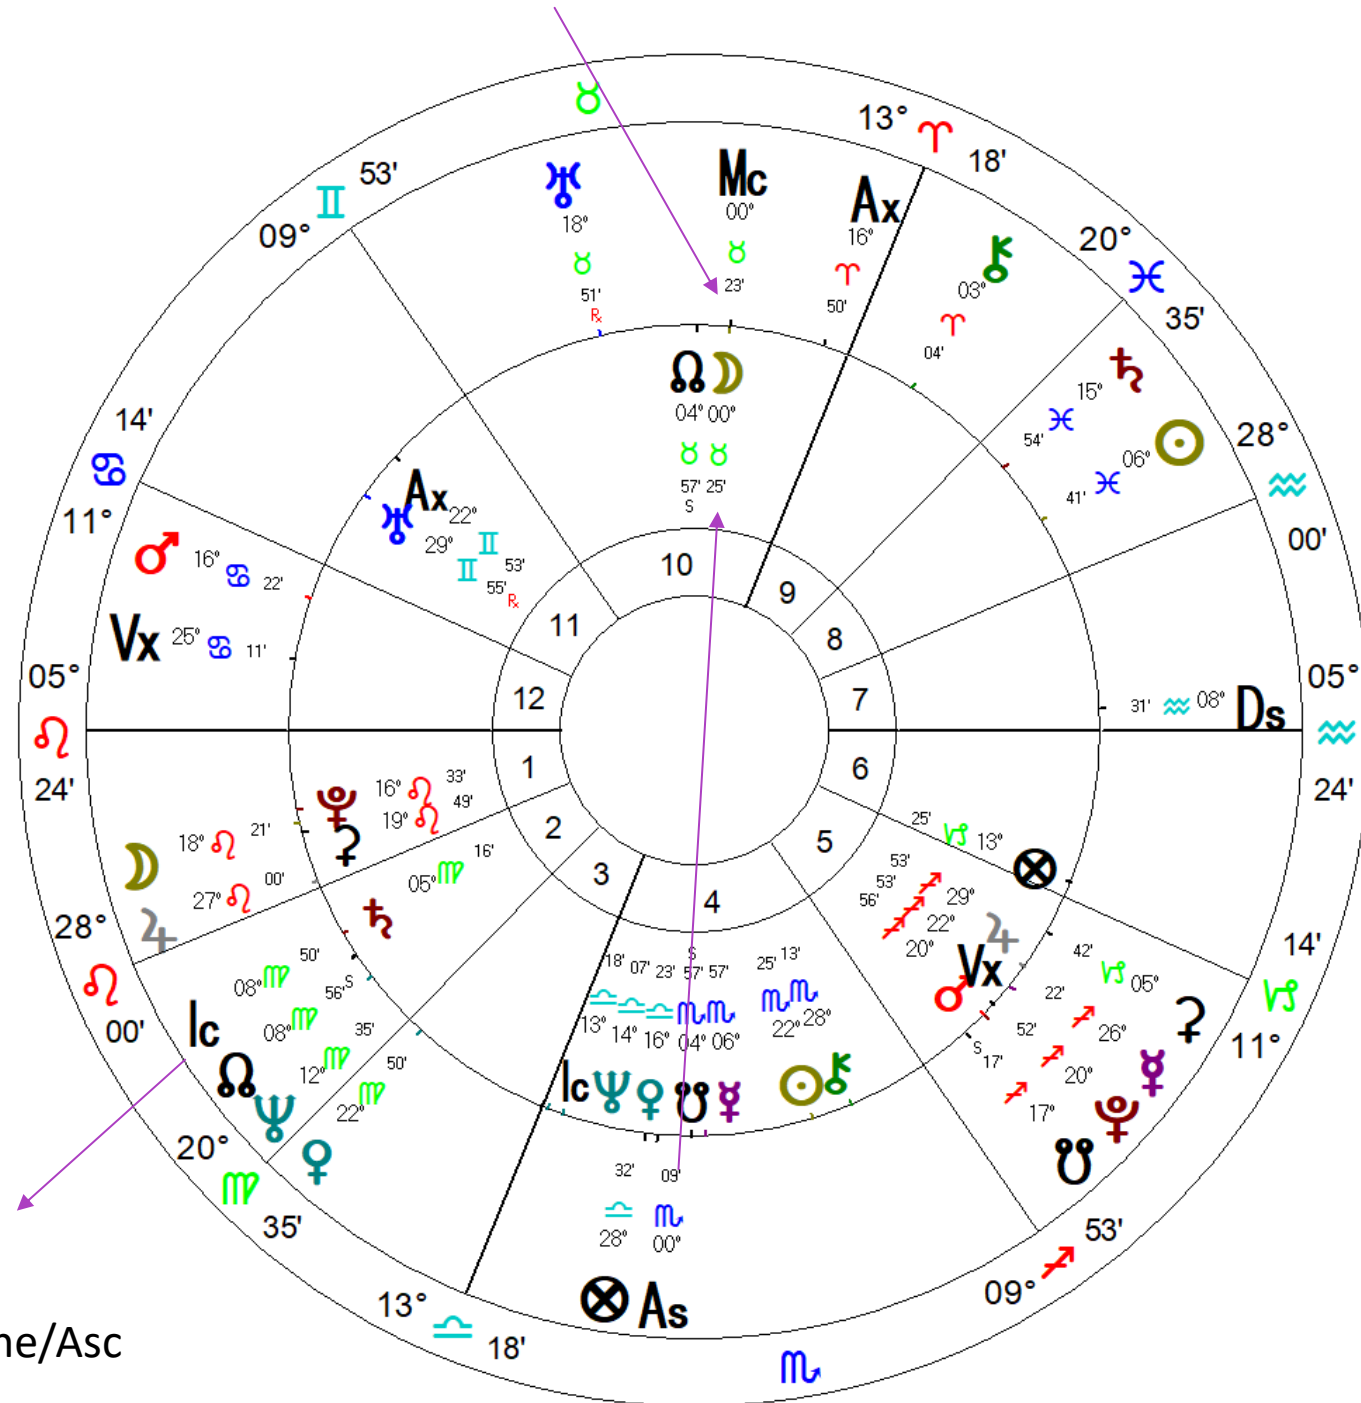

DAY AGE HARMONICS

- All planets and angles in the birth chart are placed at 0 Aries and unfold over the years.
- You can calculate them to map ordinary daily events
- and as timers for the day or days when outer planet transits, Progressions or Directions are activated.
- Day Age Harmonics move very quickly, so if the connection to the natal chart isn't within one degree, then the event will occur on a different day.
- For this reason, this system is the best timer and rectification tool I have found in my 50+ years of practicing astrology.
- In using this system, remember to include the Descendant, IC and AntiVertex in your selected points, as they move separately to the Ascendant, MC and Vertex.

On the outside wheel are King Charles Day Age Harmonic for the date and time his mother was crowned Queen. The inside wheel is the natal chart of Charles. With these harmonics we are looking for relevant connections within a degree that fit the event.

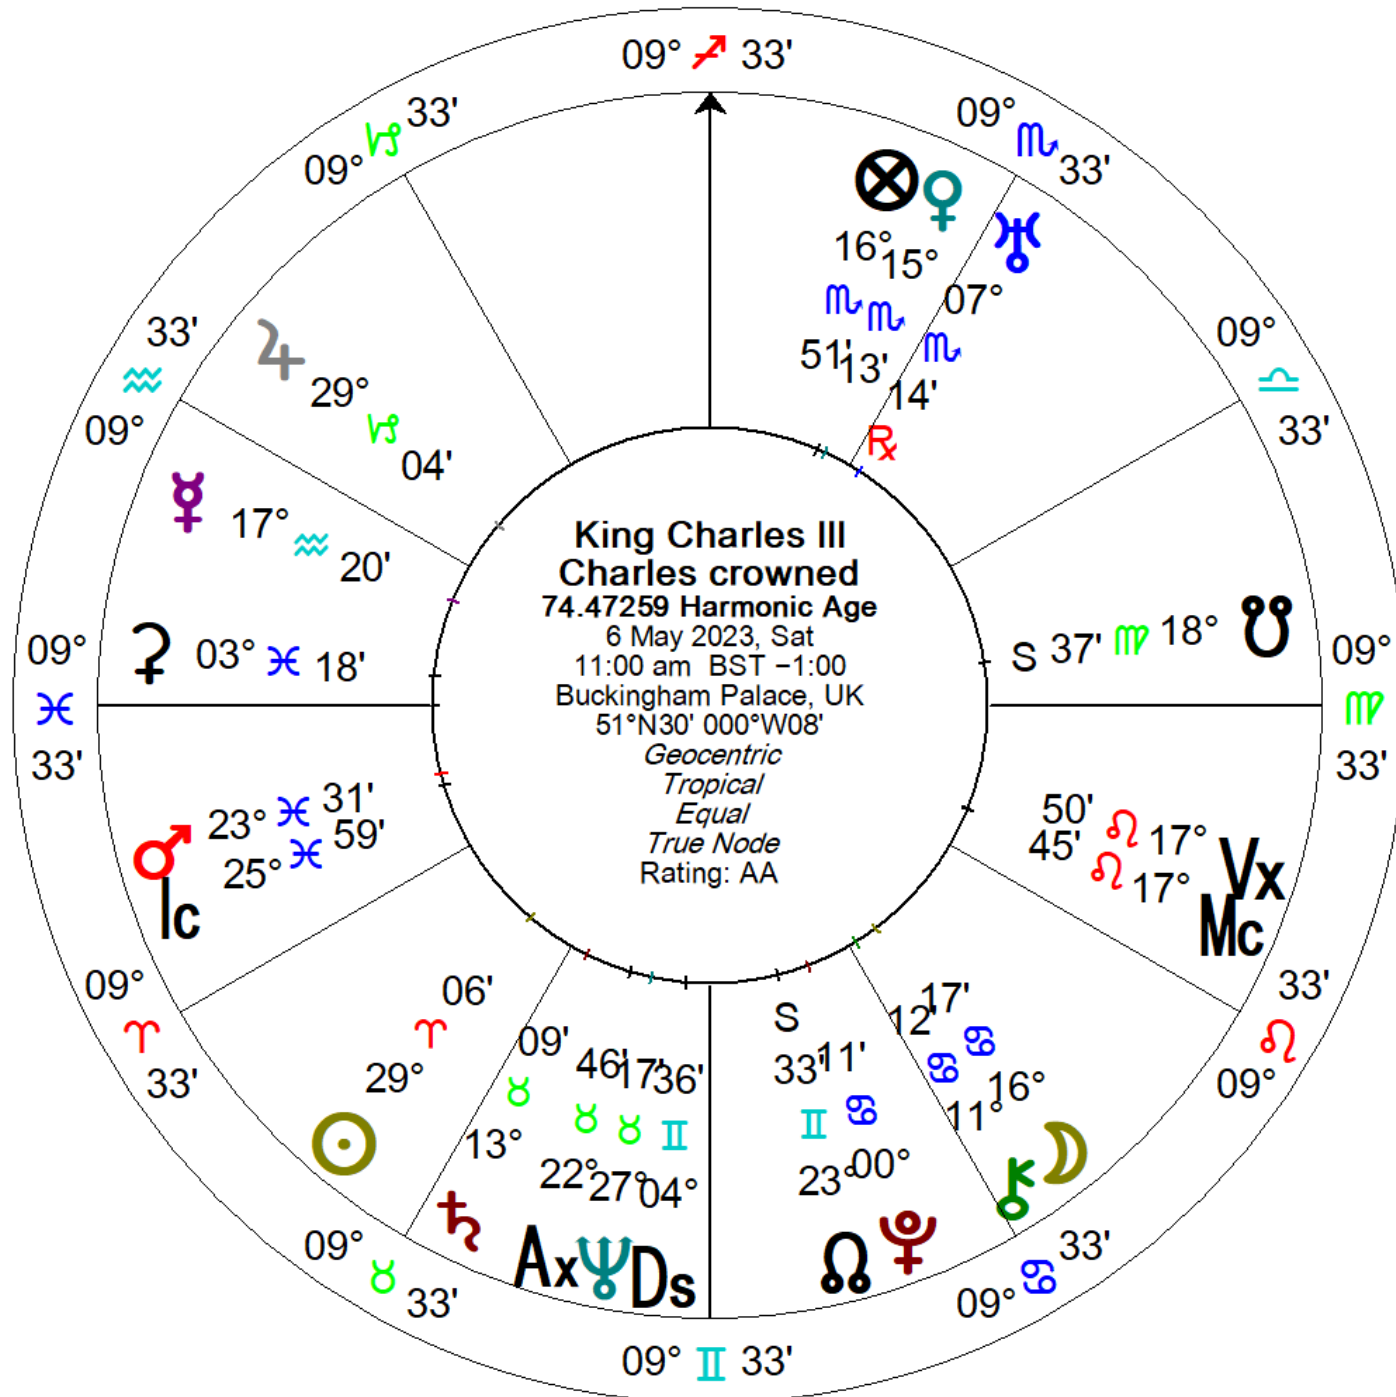

Asc/IC
 Neptune/Asc

The most prominent is DAH MC conjunct natal Moon in 10th house with DAH Ascendant opposite. DAH Pluto conjunct natal Mars, ruler of MC. DAH IC conjunct DAH Node. DAH antiVertex opposite natal Venus.

Here is the DAH chart for Charles on the day he was crowned King.

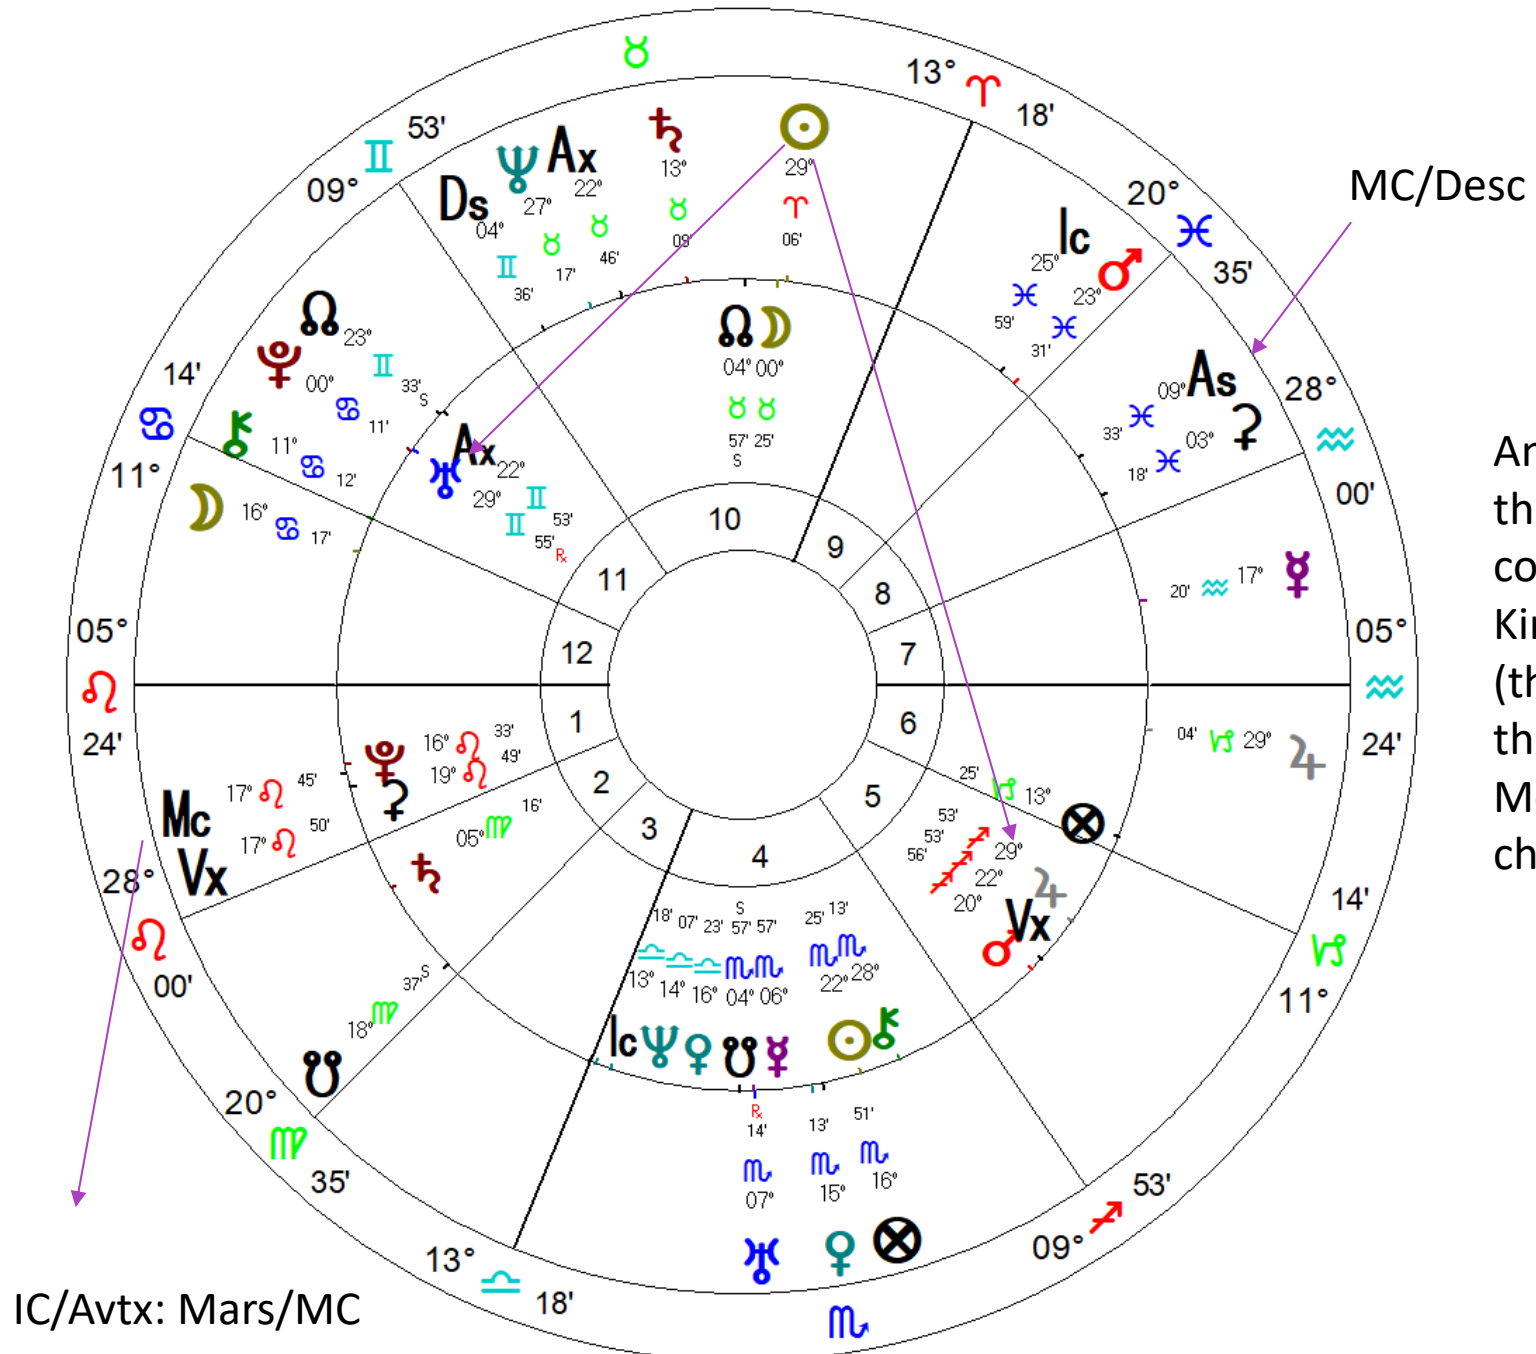

- Note the MC-Vertex in Leo, suggesting a day of destiny.
- Also note the Sun, ruler of the MC-Vertex, square Jupiter
- And Pluto on the 0 cardinal point.

Remember, everything has to be within one degree, or the event occurs on another day.

This is the DAH for the day King Charles was crowned.

There are so many outstanding connections:

- DAH Sun trine natal Jupiter and sextile natal Uranus
- DAH Node conjunct natal AntiVertex
- DAH antiVertex opposite natal Sun
- DAH Mars (ruler of MC) square natal Vertex

And interestingly, the DAH IC conjoins his Part of Kings and Sultans (the position of the Mars in the Moon equilibrium chart).

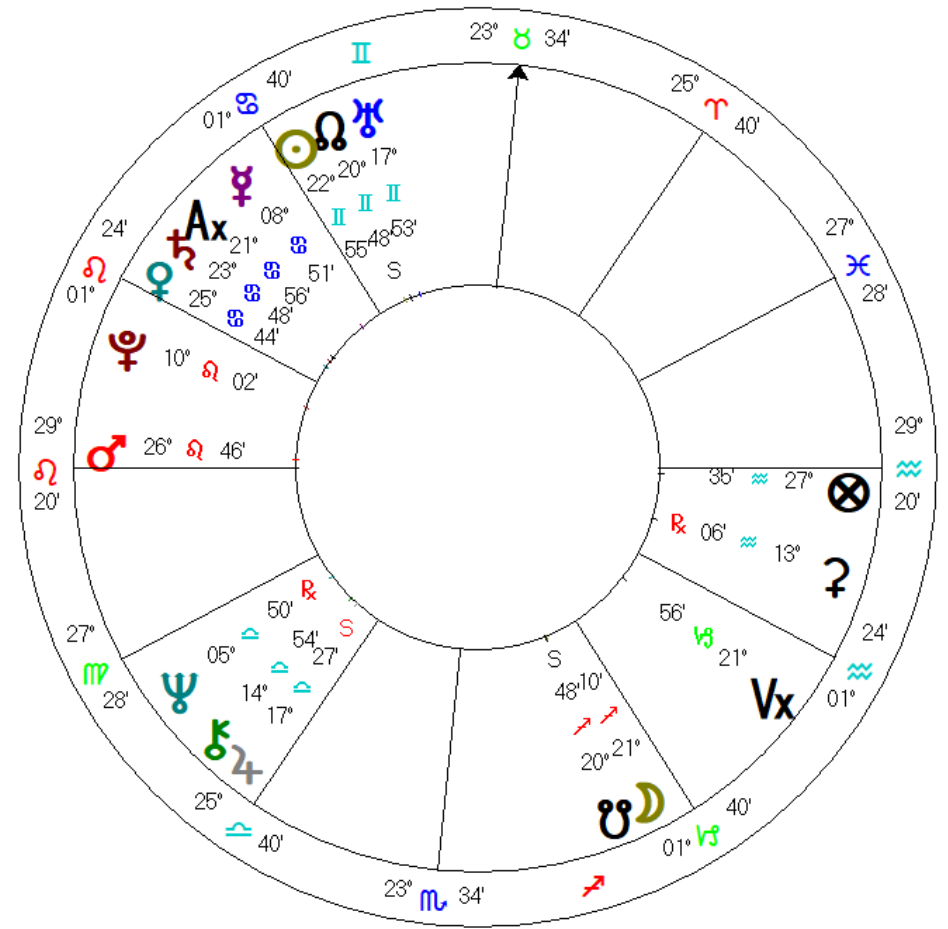

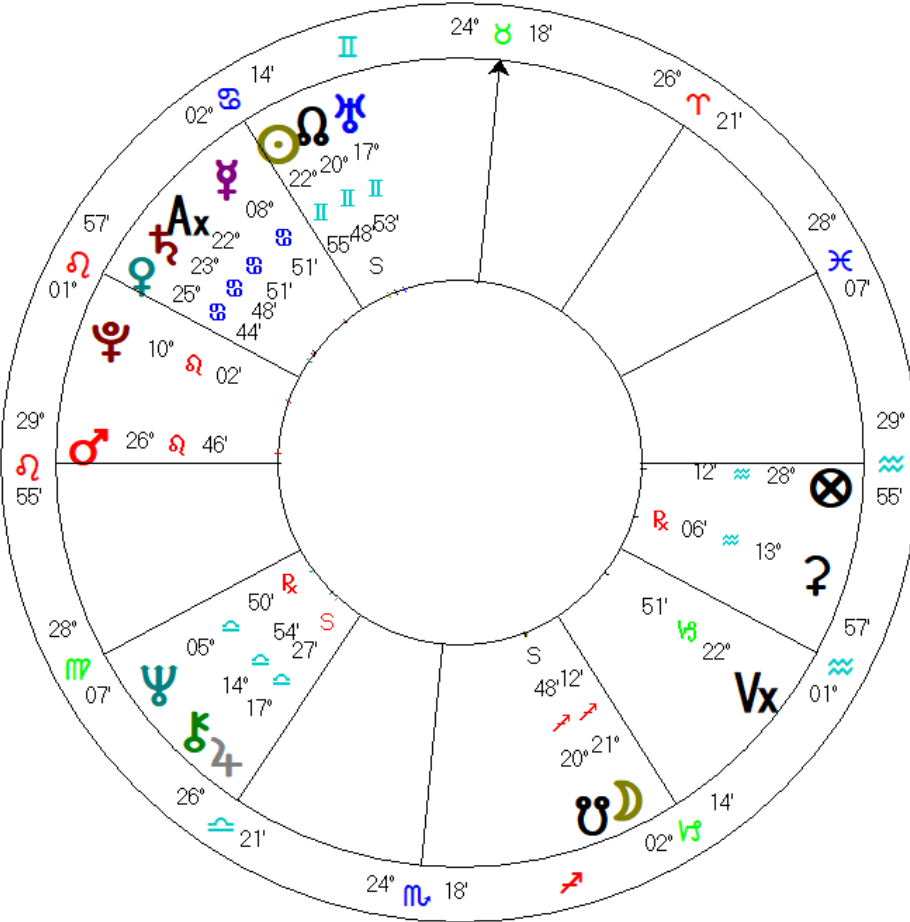

The background features a dark blue gradient with a field of small white stars. Overlaid on this are several faint, semi-transparent circular diagrams. One prominent diagram in the upper right quadrant is a circular scale with numerical markings from 80 to 210 in increments of 10. It includes concentric circles, a dashed outer ring, and a solid inner ring with a small arrow pointing clockwise. Other similar but less detailed circular patterns are visible in the lower left and bottom right corners.

You can also put the Day Age Harmonics around the Year Age Harmonic chart as that will sometimes be a trigger as well, but DAH to radix is much stronger

RECTIFICATION

- There are so many systems of rectification, and many are quite inadequate because they don't include the Vertex axis and don't consider the house cusps.
- Because they move so fast, Day Age Harmonics are the best rectification tool I have ever found.
- In any events involving the physical body or the environment, the Ascendant must be triggered.
- In any event involving marriage or partnership the Descendant must be involved.
- In any event involving parents, career or matters to do with home or land, the MC-IC must be triggered.
- DAH helps you find your correct house system because the relevant house cusp can be triggered in an event.
- Day Age Harmonics can help you find your exact birthtime within seconds.
- To illustrate let's look at Donald Trump's chart as there are two different birth times used within a few minutes of each other.

- The fast moving Day Age Harmonics should show the triggers for most of the events in his life. Did they show the assassination attempt?
- The assassination attempt was on the 13th July 2024 at 6.11 pm or 6.35 pm from two different sources
- Astrologers had been watching transiting Mars conjunct his 10.54 am MC and transiting Uranus on Algol square his Mars and thought this might clear up which MC was the correct one, the 24Taurus18 or the 23Taurus 34. Nothing much happened when Mars transited the earlier MC, but all hell broke loose when it transited the later MC, so this was a clue it might be the correct one.
- I thought I would check out the Day Age Harmonic for the event to see what it triggered.

There are several interesting triggers, but, by far, is DAH Moon opposite transiting Mars-Uranus, and t. Uranus in turn is square natal Mars. If we moved Trump's birthtime forward a few seconds, the DAH Moon would also be square natal Mars. Fortunately, none of these aspected the Ascendant.

I have also been keeping and eye on transiting Neptune quincunx natal Ascendant from the 8th house as this can give a susceptibility to illness.

Also note the DAH Neptune triggering transiting Sun conjunct natal antiVertex. A day of global prominence.

When we relocate Trump's chart to Butler, where he was shot, you can see that the DAH Sun in the 8th house, is quincunx natal Ascendant, and DAH Moon is square natal Ascendant.

If I move his time of birth forward just 5 seconds, the DAH AntiVertex is conjunct DAH Sun and quincunx natal Ascendant. This is the location where his physical body was injured.

Here is Trump's relocation to Butler with relocated DAH for the 10.51 am time of birth.
 There are some contacts, but nothing as strong as the 10.54 am birth time.

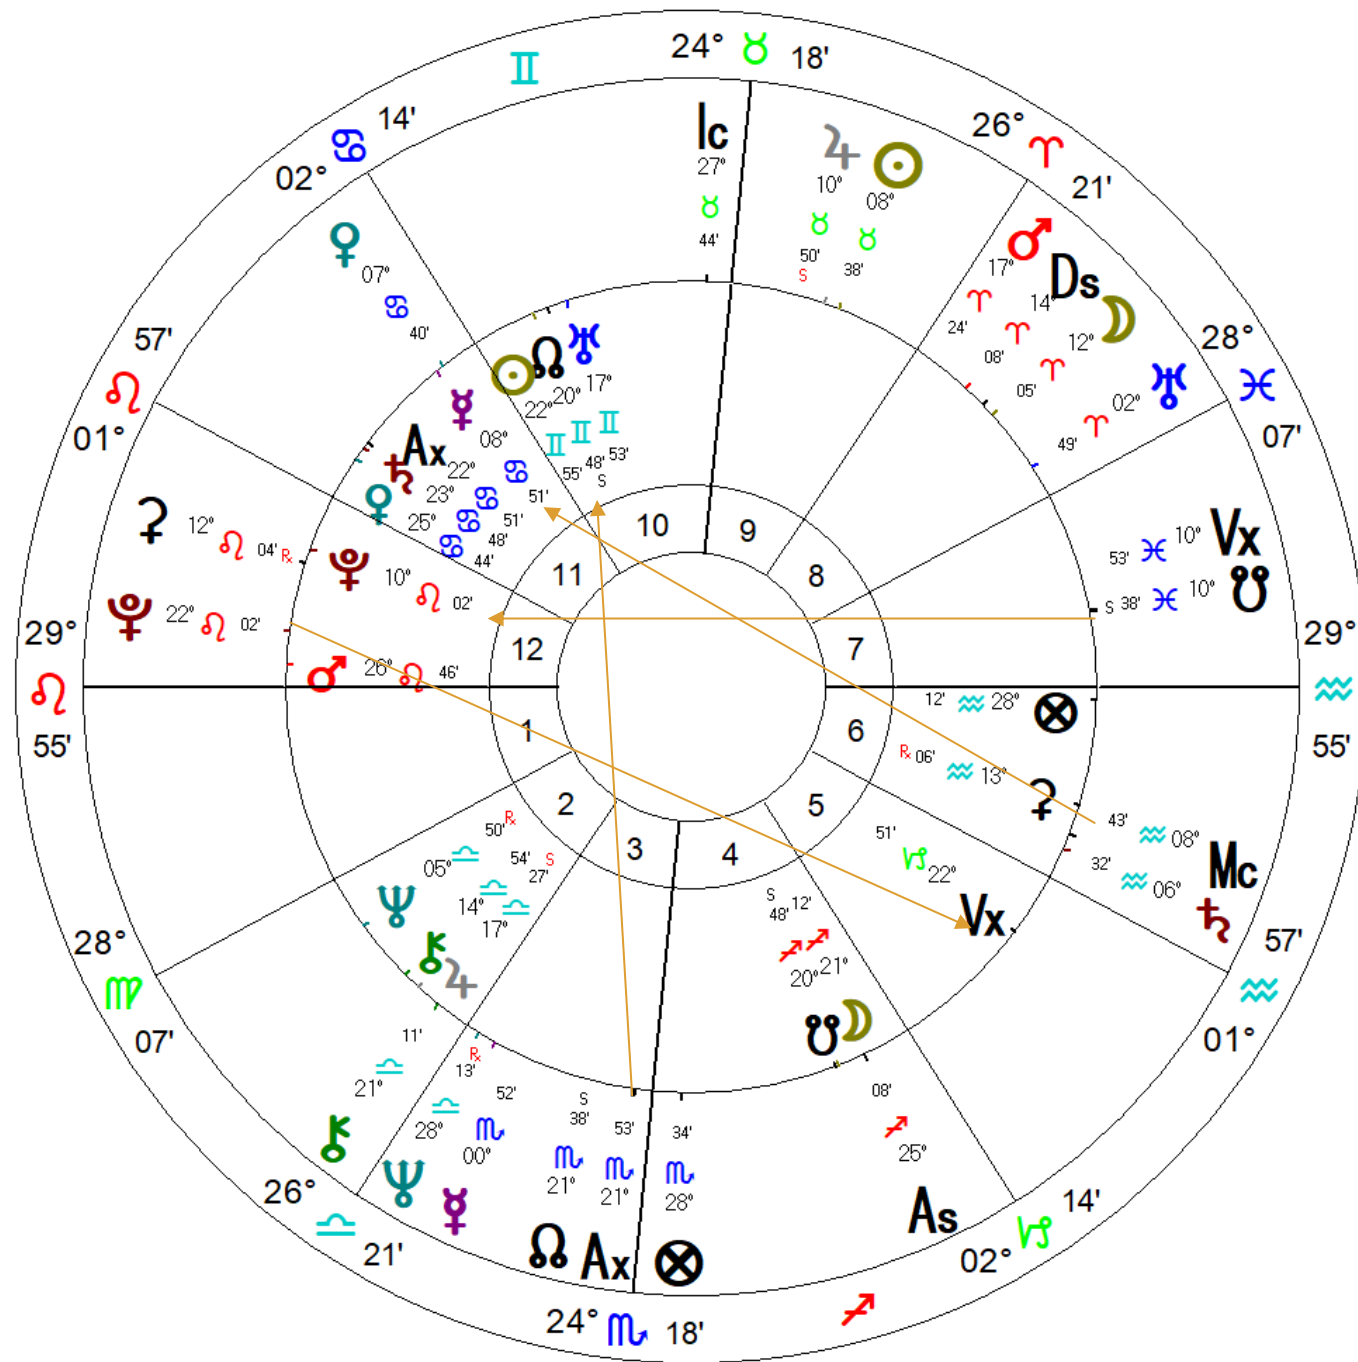

This is Trump's DAH for when he takes his Oath of Office.

- Sun square MC
(prominent day)
- Node conjunct antiVertex
(association of destiny)
- Pluto square Node-antiVertex
(upheavals and intense power play – a very difficult combination)
- South Node conjunct Vertex
(destined association)

When you relocate Trump to Washington DC, you can see his natal Mars is exactly conjunct the relocated Ascendant – a very war like combination.

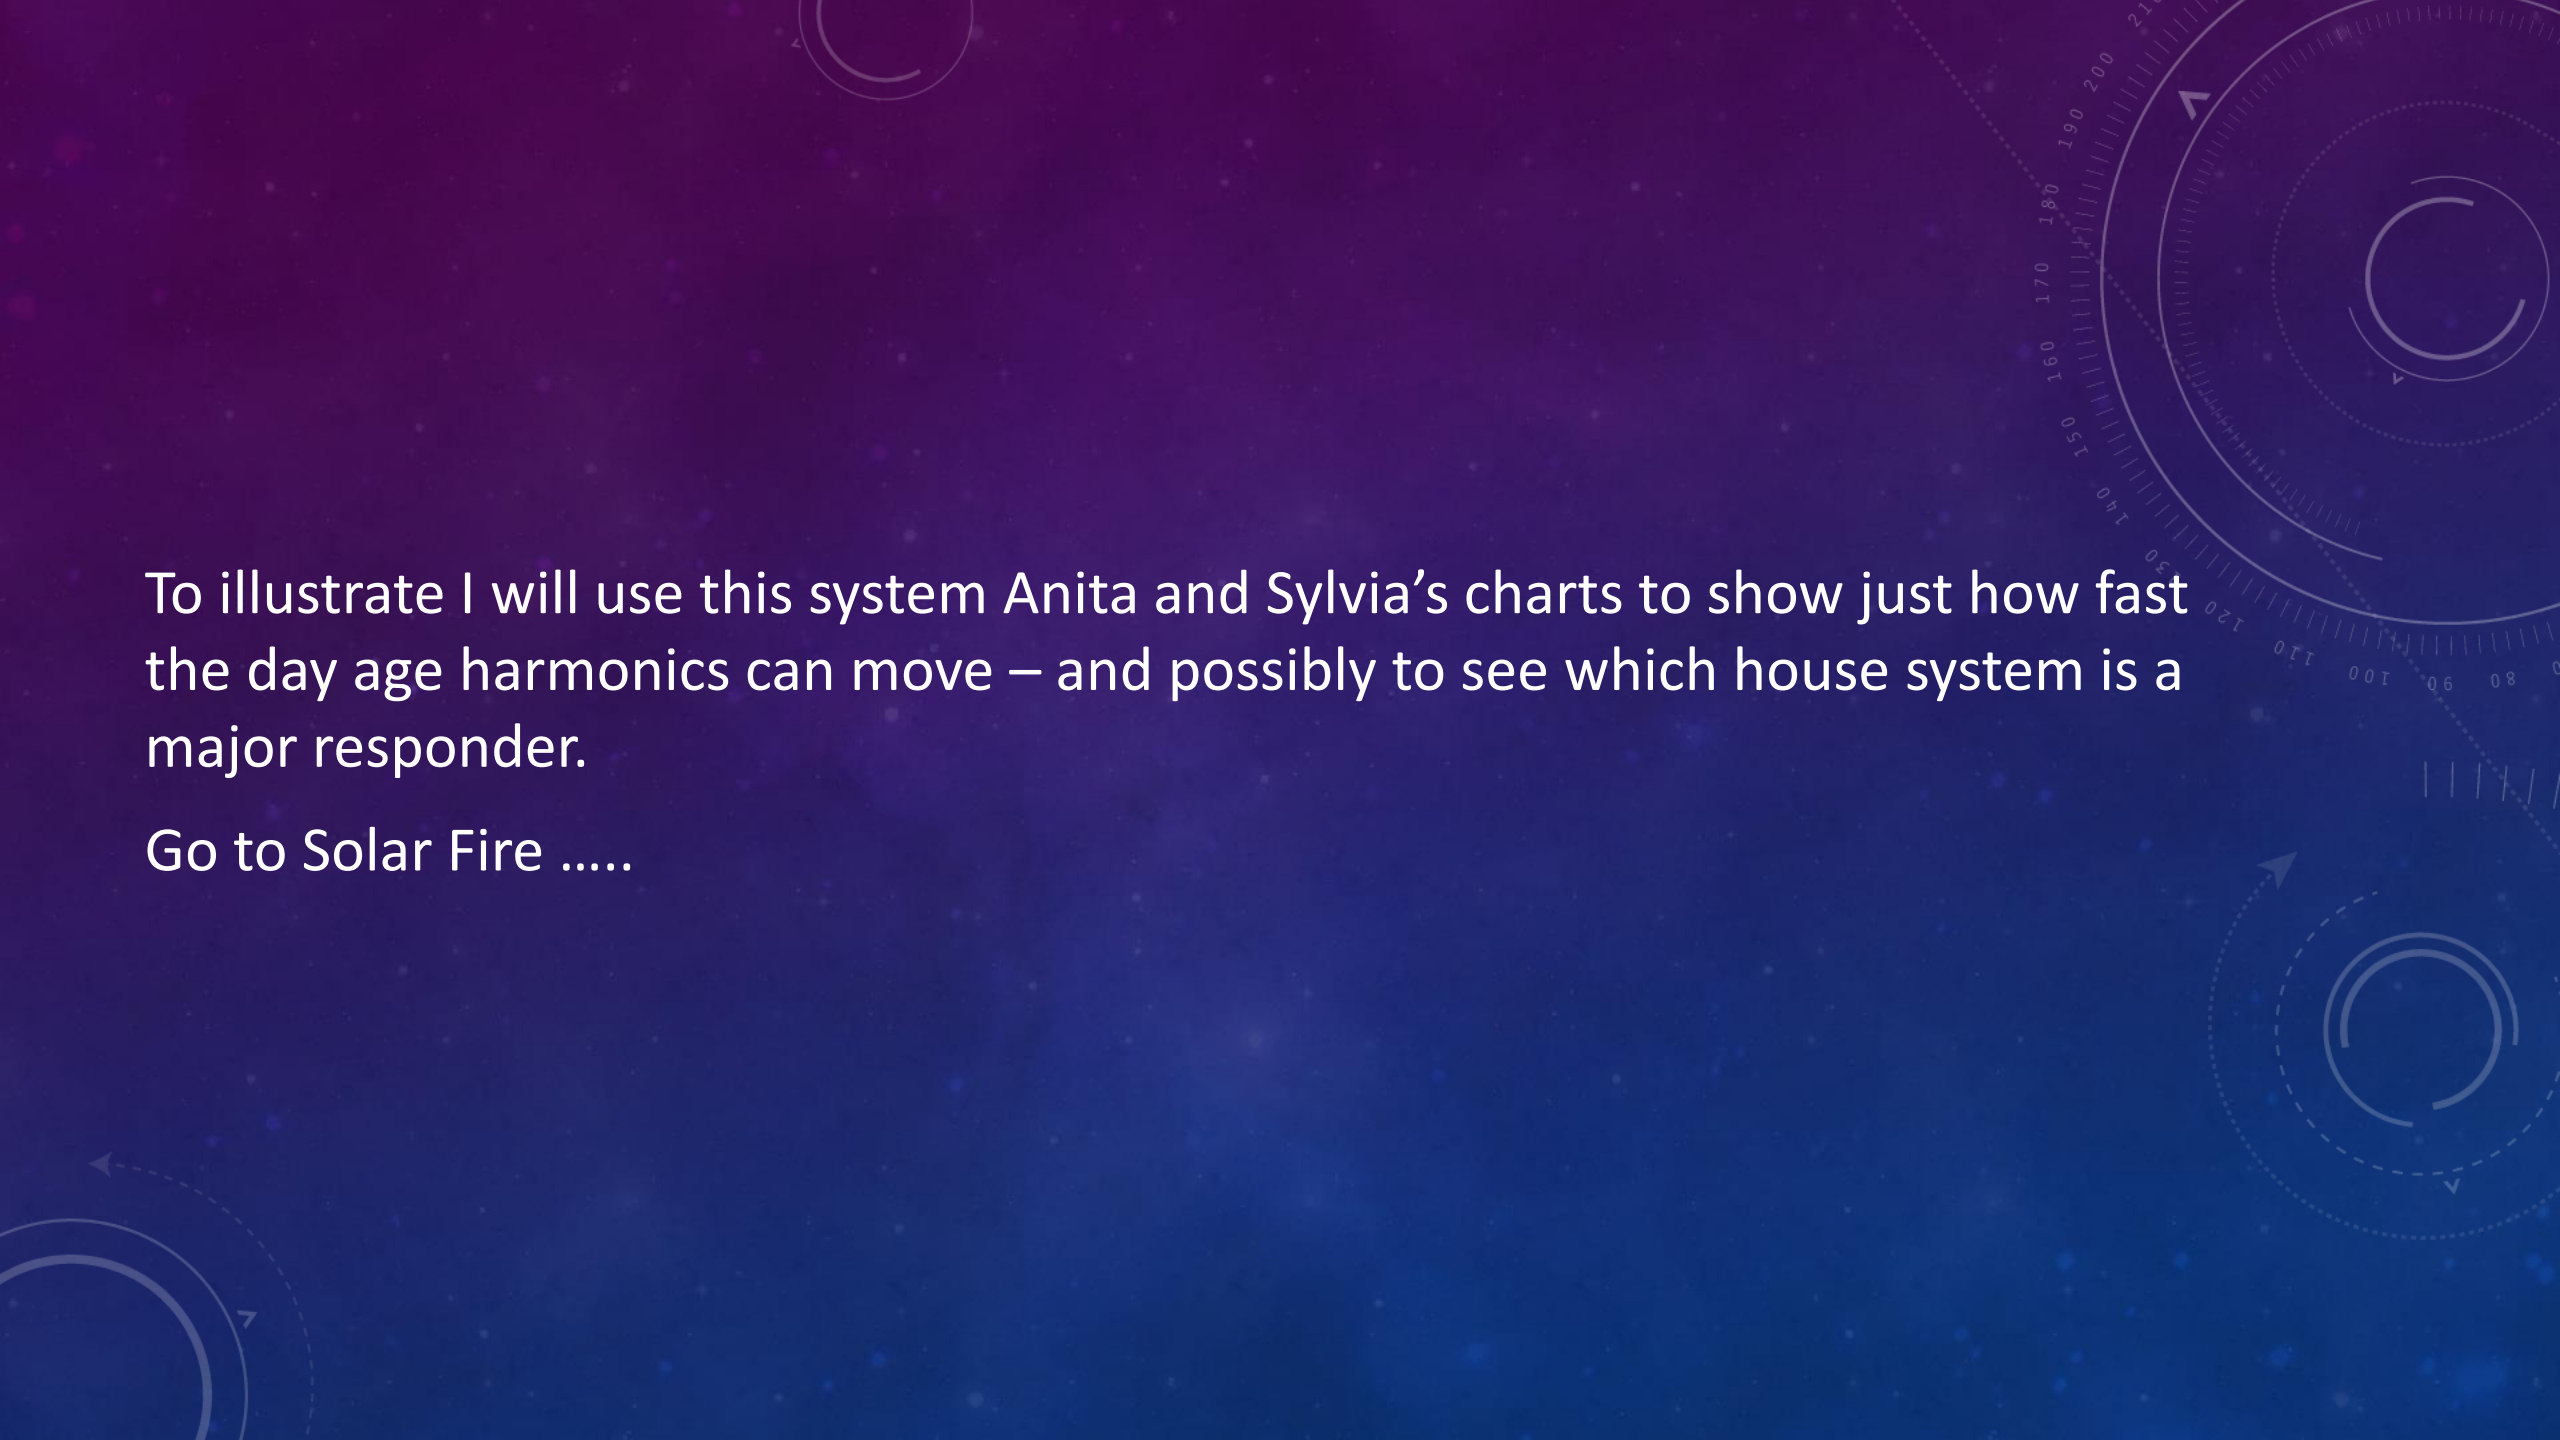

His relocated DAH for the Oath of Office also shows a very difficult combination of DAH Pluto square MC-IC, with DAH Node on the IC.

Another method to map DAH on Solar Fire is:

- go to the Dynamic menu click
- Under Saved Selections select Age Harmonics (1 Year)
- Under Start Date put in the time period you wish to use
- Click View and all the DAH to natal will appear

- You can do Day Age Harmonics with animation so you can move them forward and back is to:
- Highlight the chart you want to use on the Calculated Charts Menu
- Then go to Dynamic on the top menu, click it
- Go to Animate Biwheel, click it
- On the right hand menu click the Animation button, then put in the date and time you wish
- The click Step by Days
- Click Charts
- Scroll down the Dynamic method to apply to base chart
- Choose Age Harmonic
- Click OK

You can see the Day Harmonic on the outside wheel and you can step it back and forth for other days.

The background features a dark blue, starry sky with several faint, circular celestial charts or horoscopes overlaid. These charts include concentric circles, dashed lines, and numerical markings, suggesting astronomical or astrological data. The overall aesthetic is scientific and cosmic.

To illustrate I will use this system Anita and Sylvia's charts to show just how fast the day age harmonics can move – and possibly to see which house system is a major responder.

Go to Solar Fire
