Alpha and Omega....

Crossing a New Frontier

'In the spirit of the Alpha and the Omega,
in the way the Alpha was the Omega and vice versa,
he knew the beginning was also the end and the end
just another beginning.....'

The Anaretic Degree: 29° ☿

A 'critical' degree with a sense of intensity, urgency, crisis. Important choices need to be made. It may feel like there are no options left.

A karmic degree – pressure to deal with the issues before the cycle ends. 'The Degree of Fate'

A 'critical borderland' between 2 different realities – looking both to the past and the future.

A liminal space, threshold, a gap, a no-mans land. The end of an era. There are not many options left – this is it.

We may feel tired, long for a change, have done all we can, 'over it.' The weakest point in the sign (the sign is tired, spent). *Are we there yet?*

Faith is a state of openness or trust... In other words, a person who is fanatic in matters of religion, and clings to certain ideas about the nature of God and the universe, becomes a person who has no faith at all. Instead they are holding tight. But the attitude of faith is to let go, and become open to the truth, whatever it might turn out to be.

‘Storage’

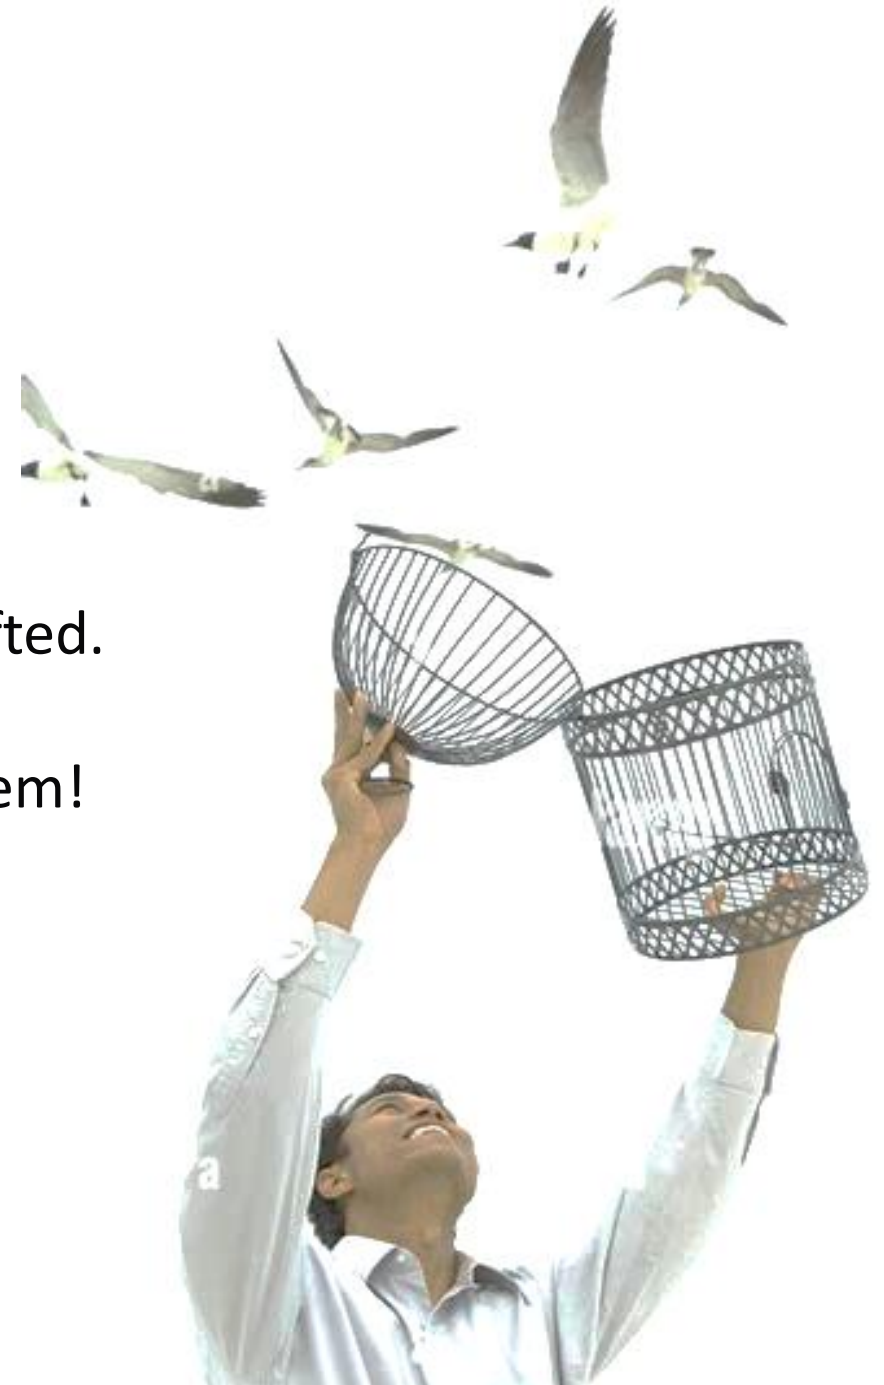

"When I moved from one house to another, there were many things I had no room for. What does one do?

I rented a storage space and filled it.

Years passed. Occasionally, I went there and looked in, but nothing happened, not a single twinge of the heart.

As I grew older the things I cared about grew fewer but were more important, so one day I undid the lock and called the trash man. He took everything. I felt like the little donkey when his burden is finally lifted.

Things! Burn them, burn them!
Make a beautiful fire!
More room in your heart
for Love, for the trees.
For the birds who own
nothing;
the reason they
can fly.” Mary Oliver

'Imagination is the conduit of communion between the physical mind and the higher mind.

It's your reset button.

When you're feeling lost, confused... go into your imagination. There you open up to infinite possibilities.'

“The Warrior and The Artist live by the same code of necessity, which dictates that the battle must be fought anew every day.”

— Steven Pressfield, Author

“There comes a time when all life on Earth is in danger. At that time great powers have arisen, barbarian powers who have weapons of unfathomable devastation and death and technologies that lay waste to the world. And it is just at this point in our history, when the future of all beings seems to hang by the frailest of threads, that the kingdom of shambhala emerges. You can't go there because it is not a place. It exists in the hearts and minds of the shambhala warriors....

Now the time is coming when great courage is required of the shambhala warriors: moral courage and physical courage.

They train in the use of two implements. One is **compassion** and the other is **insight** into the radical interdependence of all phenomena. You need the compassion because that provides the fuel to move you out to where you need to be, to do what you need to do. That means not being afraid of the suffering of your world. When you're not afraid to be with that pain, then nothing can stop you. You can be and do what you're meant to.”

How would you characterize
your beliefs?

Well...

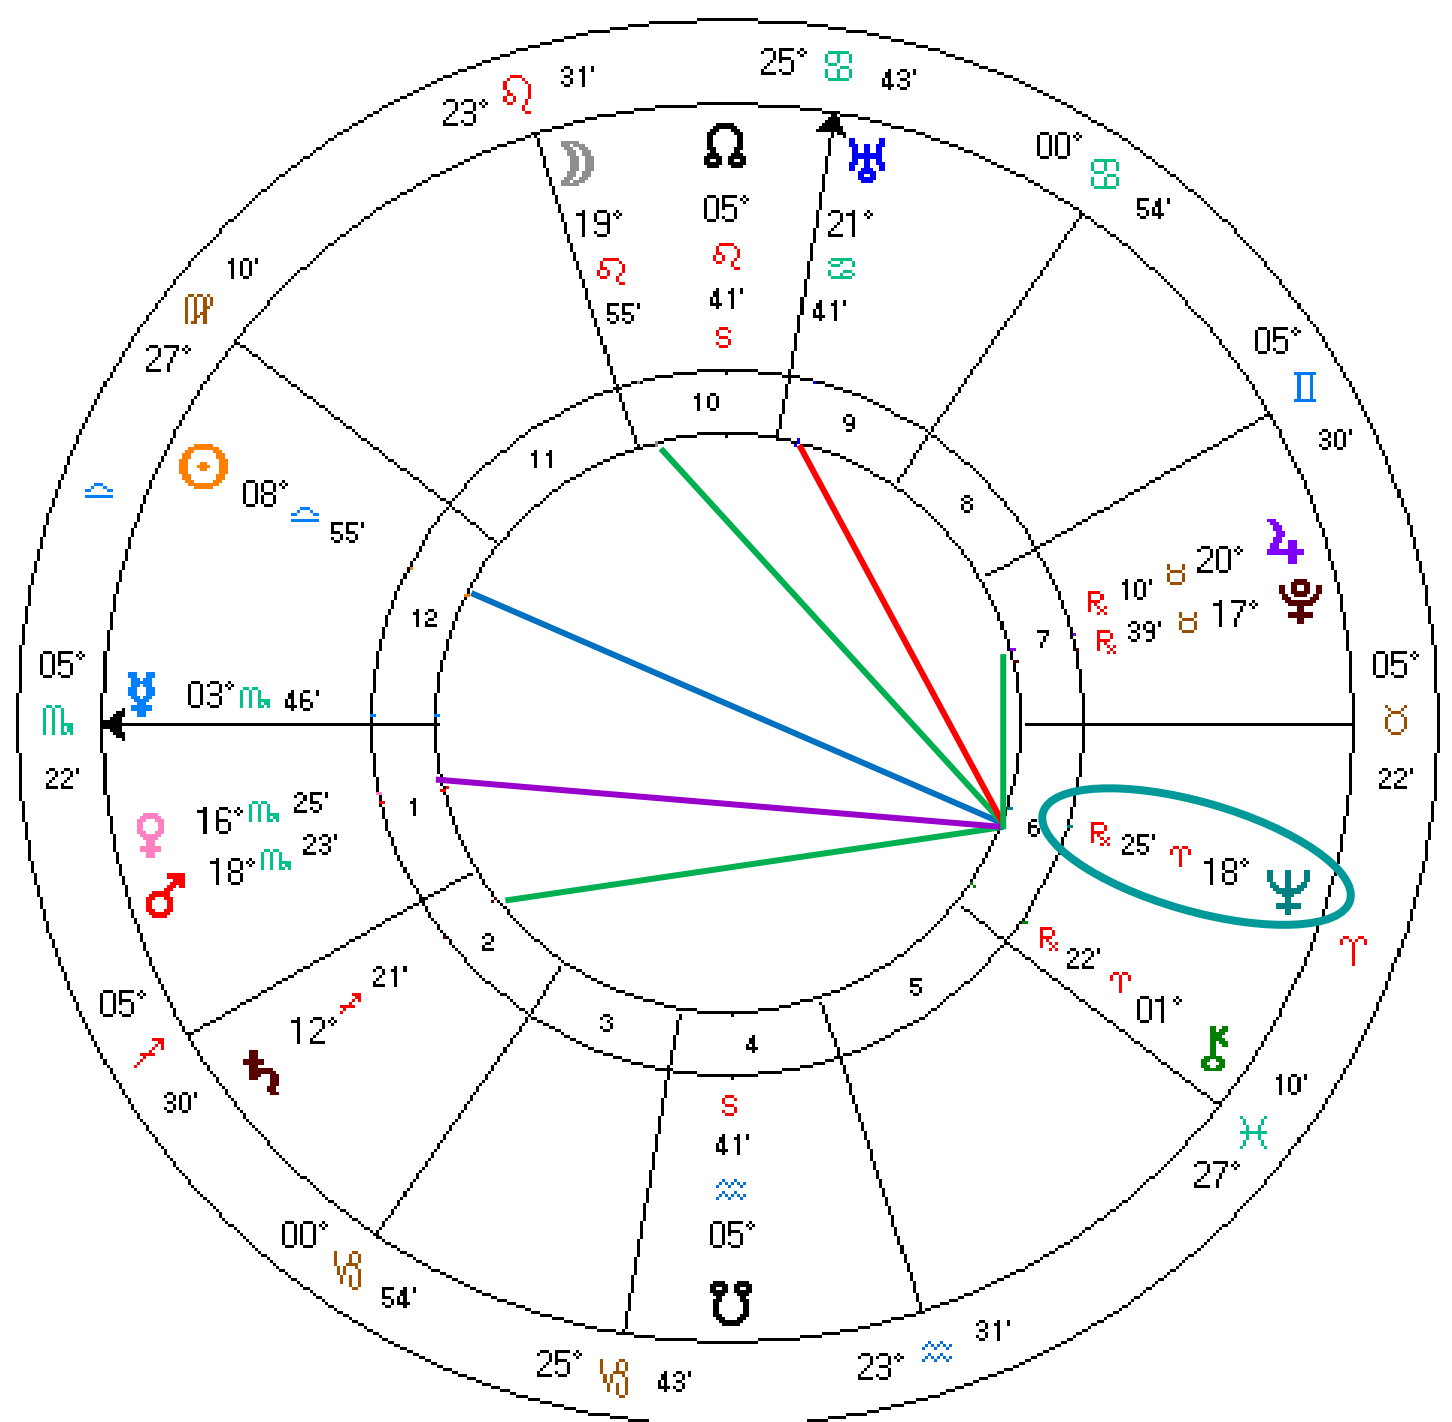

Mahatma Gandhi

‘You never know where your actions will lead you, but if you don’t do anything, they will lead you nowhere.’

‘Peace is the most powerful weapon of mankind’

Non-violence is the greatest force at the disposal of mankind. It is mightier than the mightiest weapon of destruction devised by the ingenuity of man.

Neptune is the higher octave of Venus....

“Love is a flame that burns everything other than itself. It is the destruction of all that is false and the fulfillment of all that is true.”

Saturn in Aries

- Constraints on rushing ahead... take a steady approach. Curbing the impulse to push it too far, too fast. Impulse control.
- How do we harness this fire energy and make it useful?
- Boundaries, rules.. which ones are necessary & helpful and which are not?
- Standing against authority. 'You don't get to tell me who I am or what to do.'
- Know who you are, claim your identity, know your limits, know what you're good at and what you're not. Get on with what you came here to do.
- Be Here Now.

‘A WOMAN HAS RISEN OUT OF THE OCEAN, A SEAL IS EMBRACING HER’

the old gets left behind and a new understanding and awareness comes to light. Something new is emerging and it needs to be welcomed and nurtured. This is the beginning of a whole new impulse, creative and responsive. There’s an emergence of a whole new potentiality. Resist looking back to outgrown and unsatisfactory conditions in your life as they can pull you back to old and unrewarding ways of being.

A threshold is not a simple boundary; it is a frontier that divides two different territories, rhythms, and atmospheres.

At any time you can ask yourself: At which **threshold** am I now standing? At this time in my life, what am I leaving? Where am I about to enter? What is preventing me from crossing my next threshold? What gift would enable me to do it?

The time has come to cross.
