Draconic Astrology

Recap:

- Draconic Astrology is a branch of Astrology that focuses on one's **soul path** and **soul journey**
- Draconic Astrology uses a different zodiac - the **Draconic zodiac**
- The Draconic zodiac takes as its starting point the Tropical North Node of the Moon
- In a Draconic chart, the Moon's North Node will always show as zero Aries
- Because the Tropical North Node is always moving, the Draconic Zodiac is a **moving zodiac**, taking about 18.6 years to move through a full cycle

Tropical vs Draconic charts

What stays the same?

House placements
Aspects and aspect patterns*
Angular planets
Lunar phases
Chart shapings

**but not modality/element*

What changes?

Zodiac signs
Sun & Moon sign placements
Chart ruler, MC ruler
House rulerships
Essential dignities/planetary strength**
Balance of modality
Balance of elements

***Victor Olliver 2022 calls these
"promotions & demotions"*

Synastry of the Soul*

Using a synastry biwheel
comparing the Draconic chart to the Tropical natal
to see what contacts are made between the two charts

This reveals individual **soul themes** –
themes in the birth chart which are repeated
and augmented in the Draconic chart

**Victor Olliver (2022 p38) uses the term 'Synastry of the Self'*

Relationship Synastry

Using synastry biwheels to show contacts between:

- A's chart to B's chart (Tropical)
- A's chart to B's Draco chart
 - B's chart to A's Draco
 - A's Draco to B's Draco

These new Draco contacts can reveal deeper levels of connection at the soul level between the two people in relationship

Relationship examples

John & Yoko
Brad & Angelina

- Vx features prominently in their synastry ("fated" point, acts as a second DES)
- Age difference between them - John & Yoko 6.5 yrs, Brad & Angelina 11.5 yrs
