I used to wonder whether the age of Neptune in Pisces would bring greater awareness of psychic phenomena and planet-visiting aliens, but it appears that we are experiencing invasions and abductions of a very different kind – most notably, the invasion of privacy and abduction of personal data. (Viruses – computer and otherwise – also fall under this umbrella.) Cyber warfare – politically motivated hacking, espionage and sabotage – is the new global world war of the 21st century.

A Uranian Night In

Everyone has the right to freedom of expression. This right shall include freedom to hold opinions and to receive and impart information and ideas without interference by public authority and regardless of frontiers.

– EU Charter of Fundamental Rights

Every citizen may, accordingly, speak, write, and print with freedom, but shall be responsible for such abuses of this freedom as shall be defined by law.

– French Declaration of the Rights of Man

I open this country up to
democracy. And anyone
who is against that ...
I will jail, I will crush!

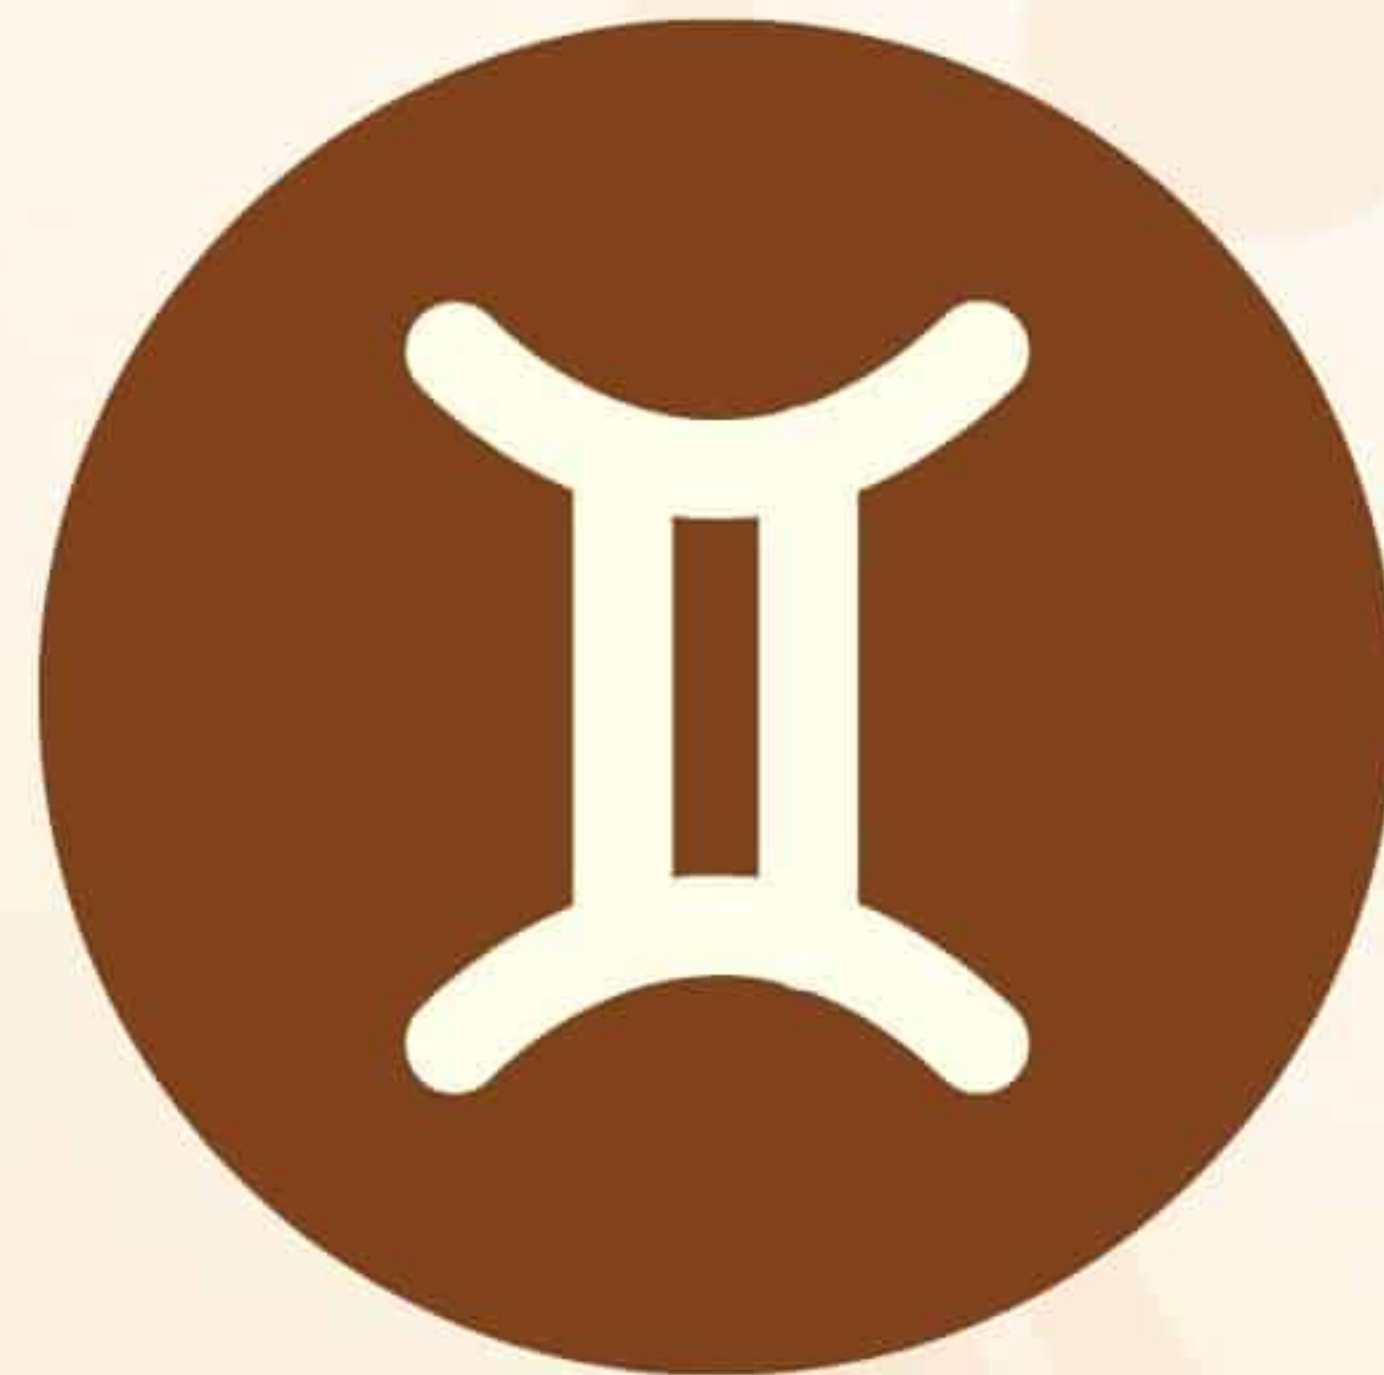

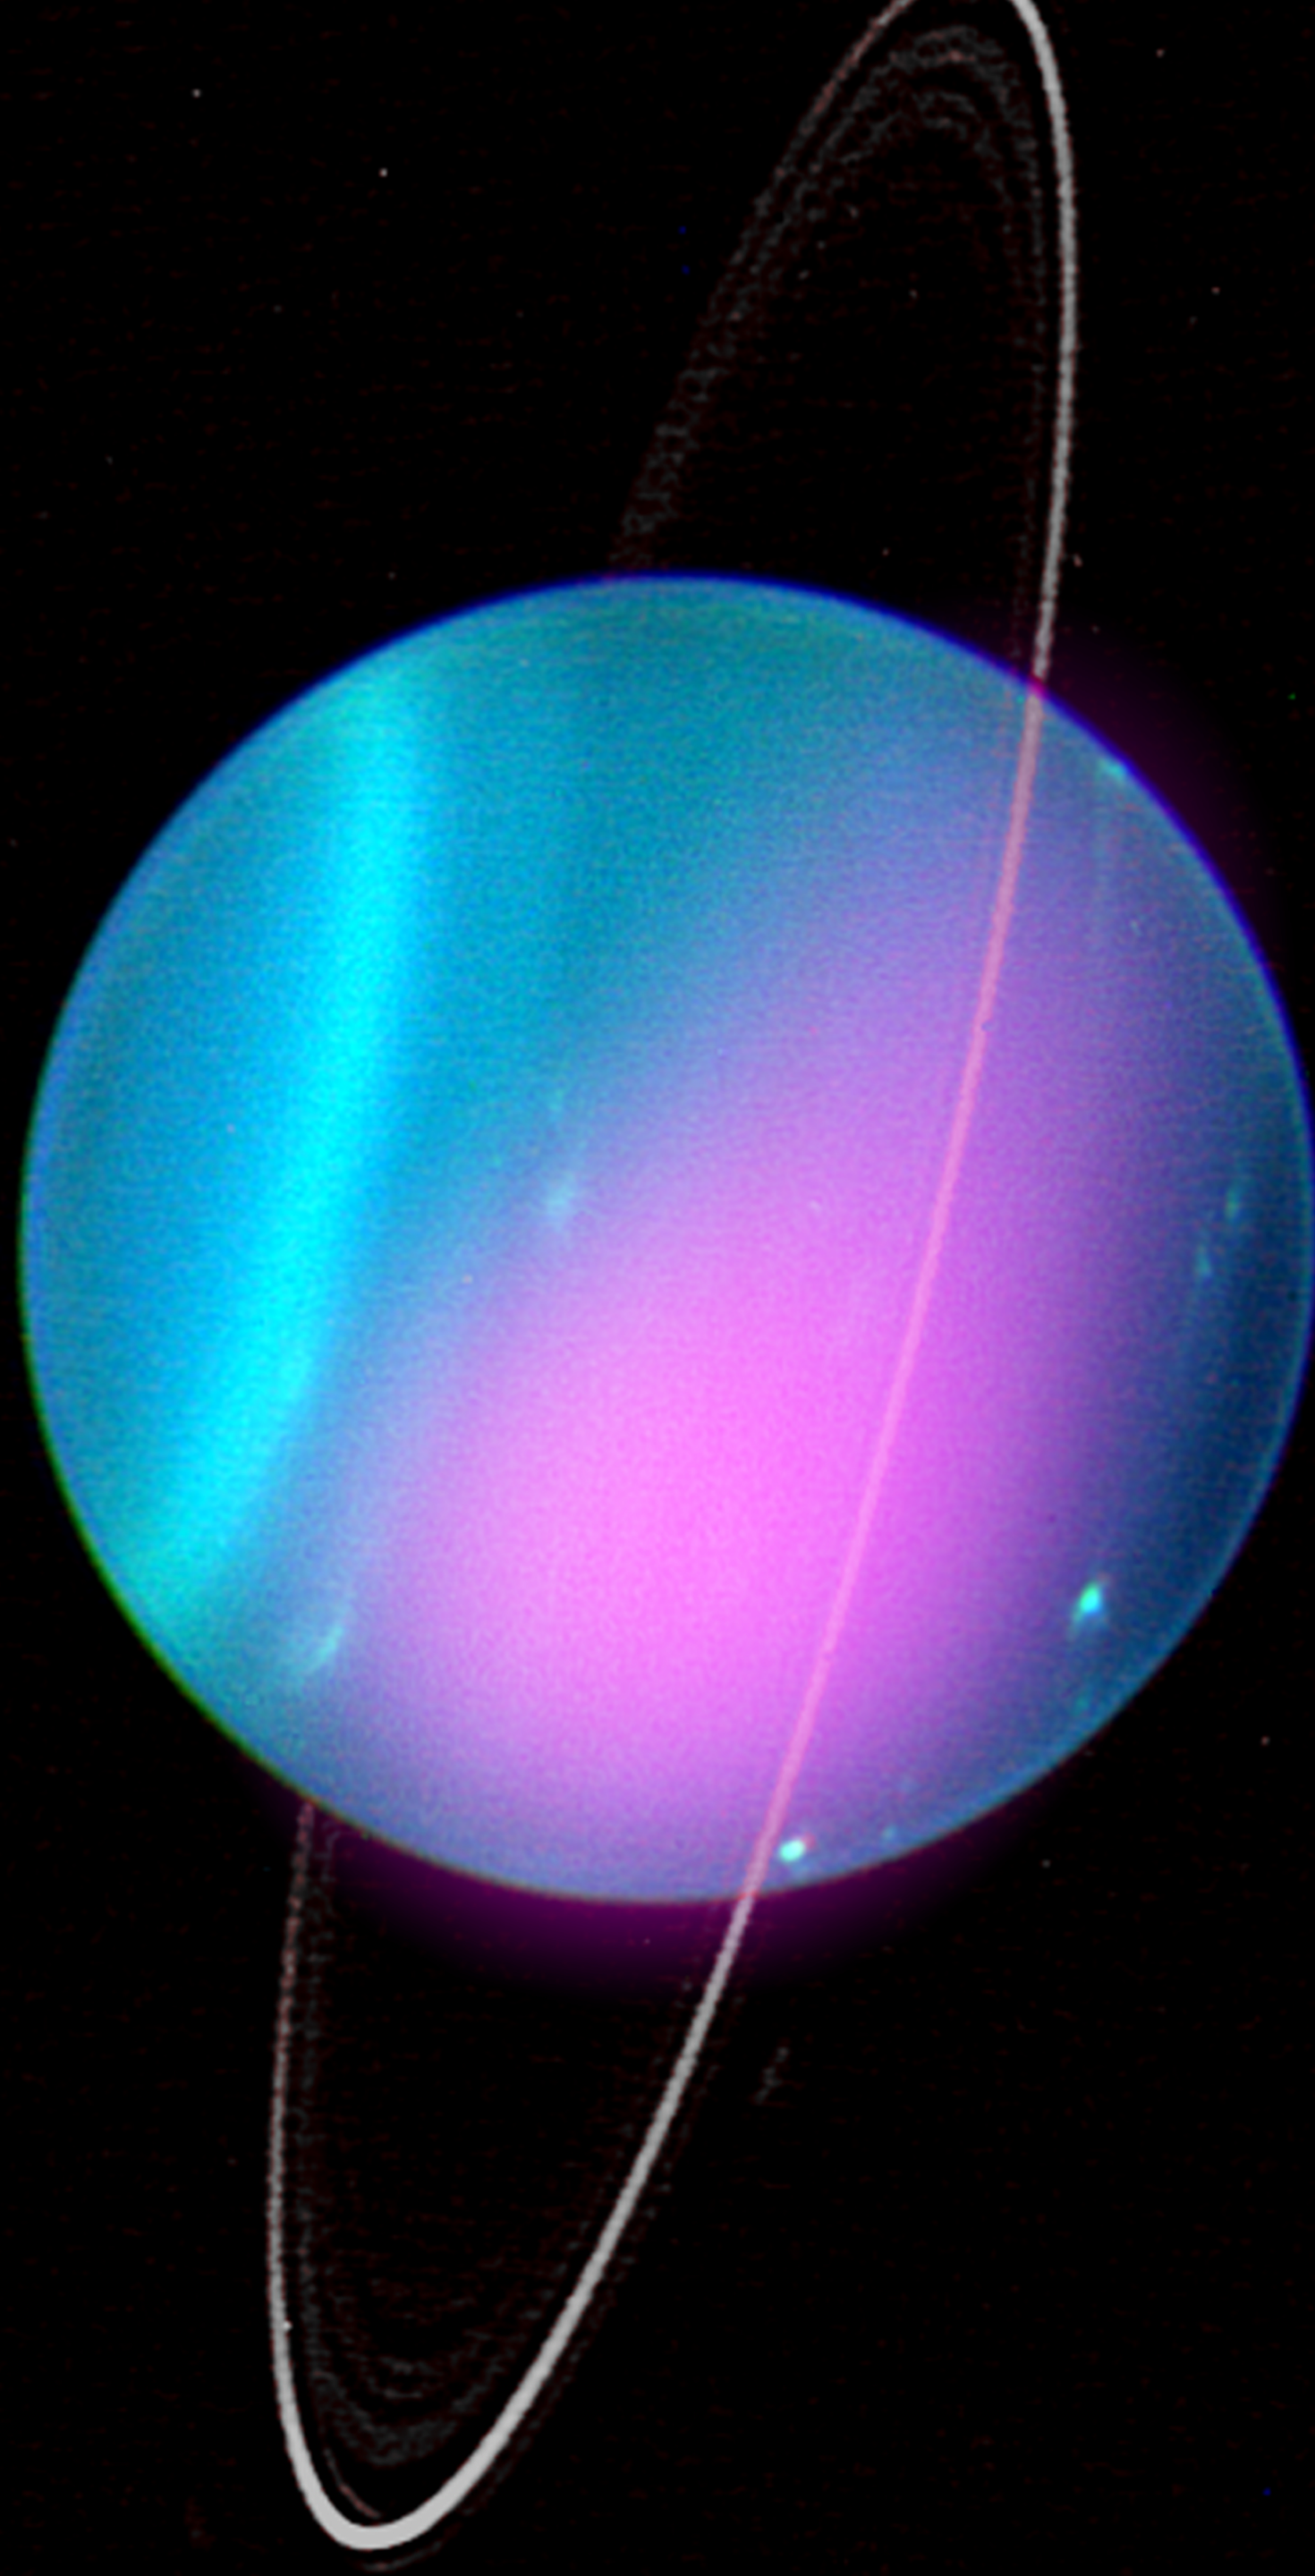

– Uranian politician!

The very act of rebelling against something means that one is in some way **deeply bound up with**, and subtly dominated by, the very thing one is fighting. This is not an expression of individuality, because that comes from within.

– Liz Greene

When [Uranus] takes **possession** of the individual ego it reflects a particular kind of madness which involves a **global vision of perfect order** ... [Uranus] can also be exceedingly destructive because it is so disconnected from living human reality.

conscience, above all liberties.

URANUS strategies (1)

- ☀ Enjoy the lack of routine/breaks of pattern; create space for yourself
- ☀ Break the mould; let Saturn-type people/restrictions move you from complacency, irritation or intolerance towards embracing deeper change/progress through spontaneity and experimentation
- ☀ Deviate; try something exciting out of your comfort zone; take (calculated) risks

URANUS strategies (2)

- ☀ Heed insights/'eureka' moments > evolution, 'coming out', awareness, new ways forward
- ☀ Wake up to what you've been missing!
- ☀ Explore reversals/the 'opposite' side (globally, socially, politically, personally)
- ☀ Invest in learning about new technology
- ☀ Engage in unusual pastimes
- ☀ Volunteer; wake up humanitarian interests
