Love may feel hard to find . . . but remember, meeting that one amazing person who becomes your life-long teammate only needs to happen once.

What Defines A Relationship?

We are looking at love

- Any important connection you share with another
- Dating apps just on astrology
- In love, the activation of romance planets is key
- BUT...People get in all kinds of relationships for all kinds of reasons
- Ideally, you'll see more than 1 transit to indicate the start of something big
- Planets require pro-activity, because sometimes that's the point

The Nodes!

We Are Starting At The Top!

- Why nothing beats The Nodes where it comes to prediction!
- Love planets and rulers of love houses, visiting the nodes, brings changes in love
- The love you have evolves
- The North and The South

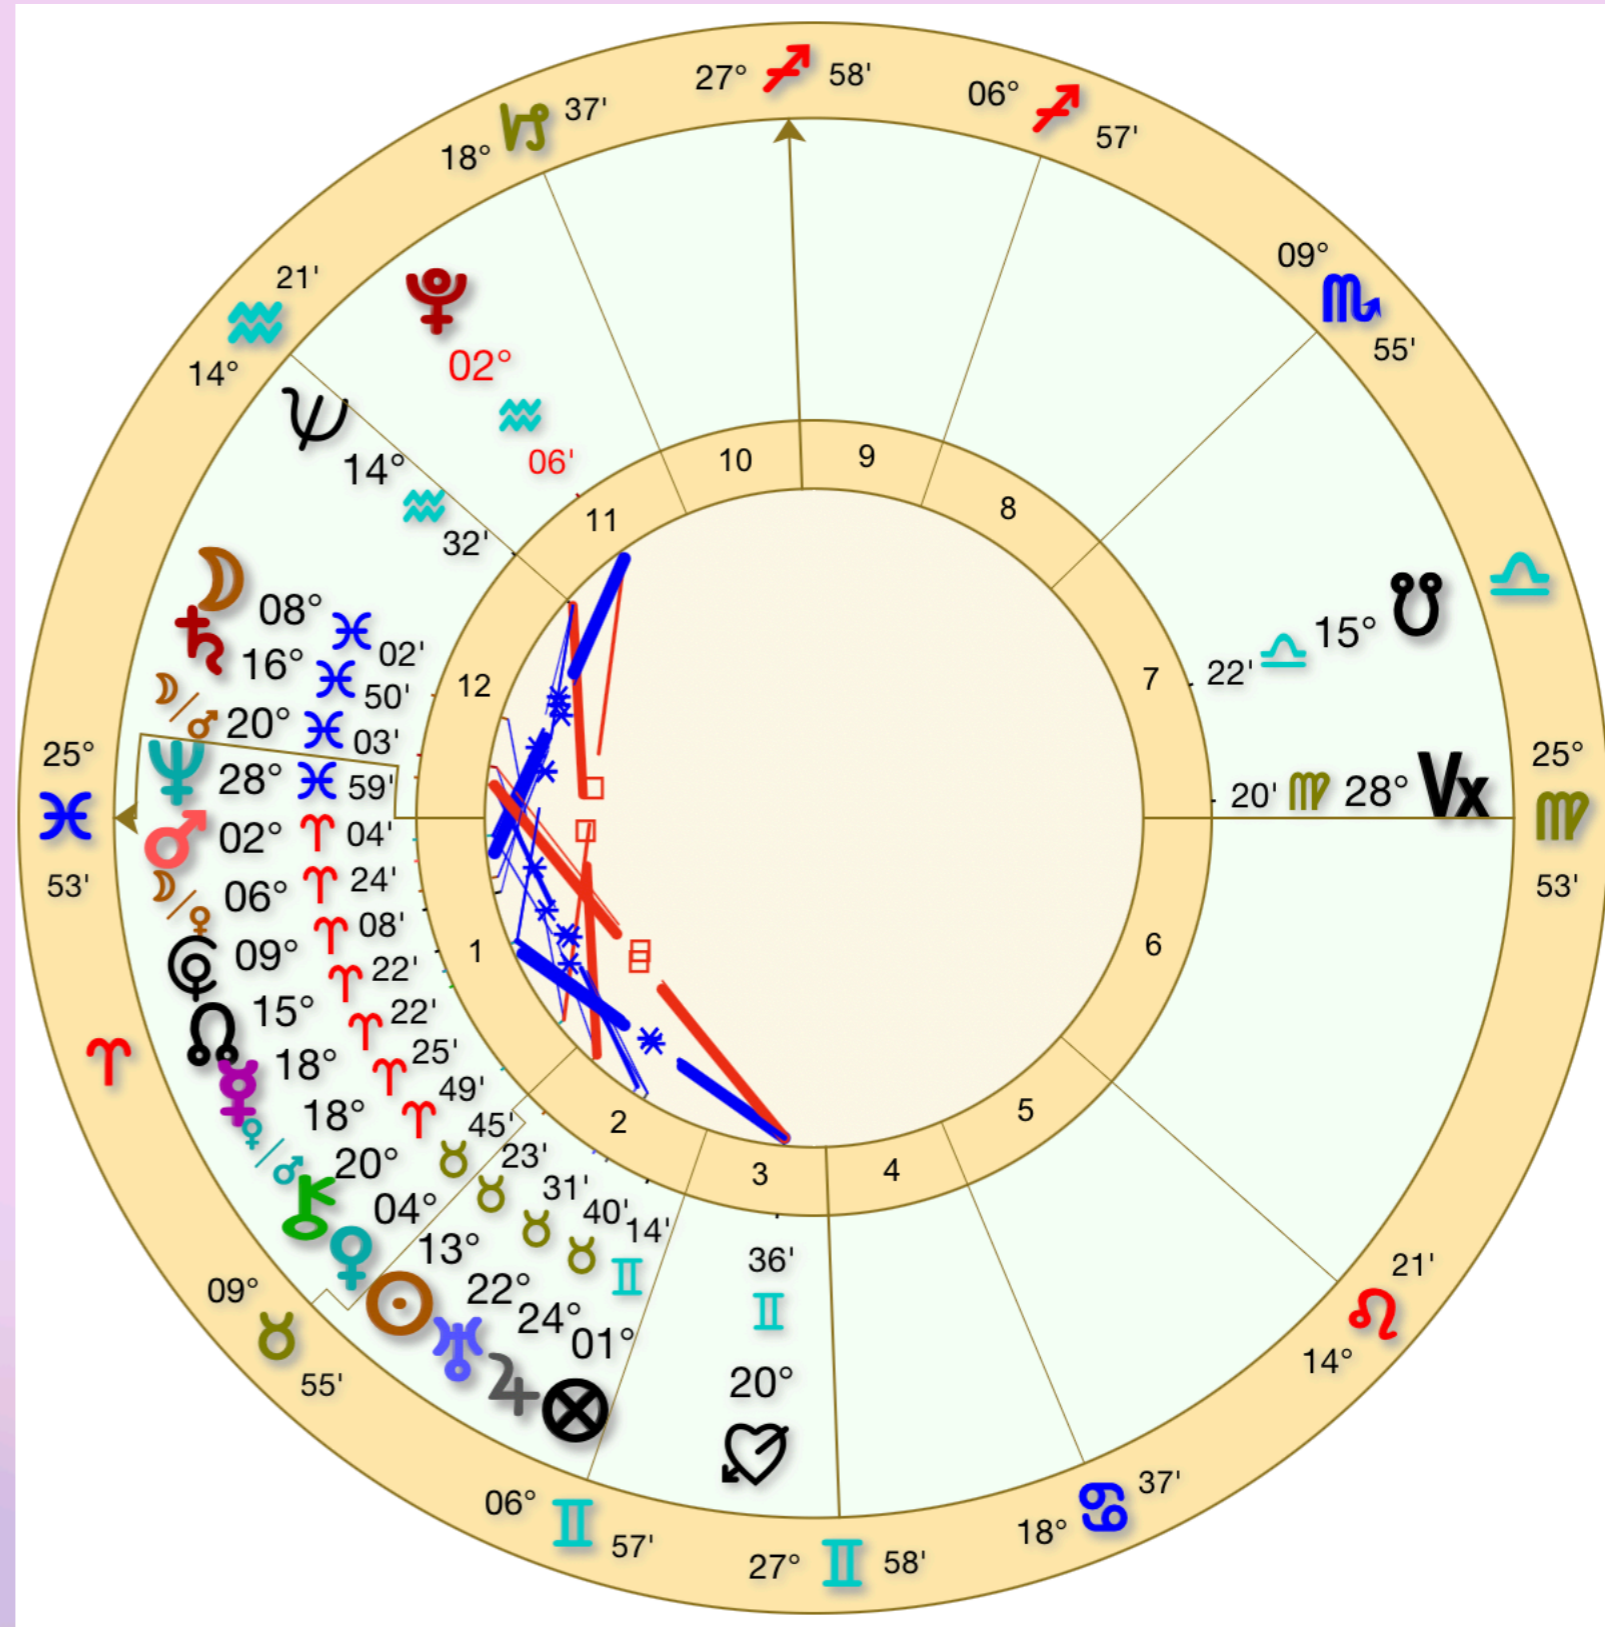

Midpoints

Powerful in Prediction

- A more advanced technique
- Again, looking at Love planets and rulers of love houses, visiting the midpoints, brings changes in love
- Consider the midpoint of the planets ruling your 5th and 7th
- Love planets transiting love midpoints

The Vertex

Electric Meetings

- Someone who pulls you into a vortex
- Quick reactions
- Makes an impact
- The nature of the planet speaks to the type of person

The Main Love Planets

The Moon

- Your comfort zone
- We create what we know
- What feels comfortable isn't always what's best for us
- Aspects to or from can indicate meeting someone who feels comfortable, who feels like home

The Main Love Planets

Venus

- Sweetness, light, beauty, tenderness
- What you want someone who is in partnership with you to see you as
- The things that make you feel adored and cherished
- The ideal partnership, and how your partner might support you

The Main Love Planets

Mars

- Freud's theory of libido & Self-destruction
- What turns you on is set into motion before you could speak!
- What you cultivate in you to be desirable
- How you flirt
- What you like sexually
- You can retrain yourself through practice

The Main Love Planets

The Ruler Of The 5th

- Can indicate the activation of your more romantic self by transiting planets
- Consider when planets are transiting the 5th house. It can indicate romance, characteristic of the planet visiting
- Any aspect to the Ruler of the 5th can initiate romance, or at least, a flight of fancy

The Main Love Planets

The Ruler Of The 7th

- Can Indicate partnership or the desire for it
- Any transit to the 7th house ruler is going to activate your feelings about love and partnership, and indicate developments
- Any transiting planet through the 7th house, especially when the planet that rules it is visiting, marks a powerful window of time

The Main Love Planets

The Ruler Of The 8th

- Sometimes, depending on how dominant the 8th is, and how it shows up in relationships in the past
- Mostly a powerful attraction that feels fated, or a taboo attraction, or power/ sex dynamic
- What you purposefully keep secret, and might be complicated or messy
- See the ruling planet and transits to it, as well as planets transiting through the 8th

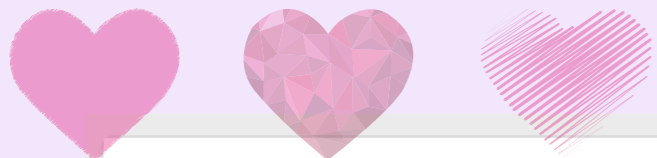

Transits

Require Proactivity...mostly

- Outer planets to your love planets

Stop worrying about how many “**wrong ones**” there are out there. It doesn't matter.

You only need ONE right one.
