# Neptune armours up in the warrior archetype of martial Aries 2025 — 2038

---

Neptune is the spirit of the times, expressing through favoured spiritual and mystic paths, escapism, drugs, fashion, film, and the arts. Its signature is unmissable from decade to decade and accounts for much of how we remember a period eg. Neptune in Scorpio through the 1960's and the psycho/sexual revolution then in Capricorn, the 'greed is good' ethos of the 1980's etc.

After looking at major expressions of Neptune's 14 years in Pisces, we'll address the growing concern on the tips of everyone's lips 'will there be war-like last time?!'

---

# Neptune armours up in the warrior archetype of martial Aries 2025 — 2038

---

Aries, the fire brand of Sheros and Heros, has had quite a run in recent herstory, having hosted Uranus and currently hosting Chiron. In 2025 Neptune, swaps out its siren song of fairy bells and millennial pinks for air raid sirens and the red of rage much like act 3 of an Aries trilogy.

As always Vanessa brings a feminist lens to this talk as we look at how women have expressed the Aries archetypal themes in our culture and how these may continue. Representation matters because you've got to see it to be it as well as actually see it because of gender bias and stereotypes.

Neptunian topics are always fascinating, as are the cycles of herstory. Join Vanessa Montgomery on this mystical, artistic and altruistic look at the possibilities and promise of Neptune in Aries and manifest on a positive.

# FAST

Events, social change, technology etc may move extremely quickly with these planets in fire and air, as well as the Saturn/Jupiter cycle now in Aquarius/air.

Currently on the cusp of the a.i revolution, the technological advances are still somewhat unimaginable to most people. By the end of this transit the world may be leaps and bounds from what is familiar. Get ready for the ever changing 'new normal'.

Chiron in Taurus - Earth

# PAIN POINT

Chiron will be in Taurus for much of this period after it ends its final degrees in Aries.

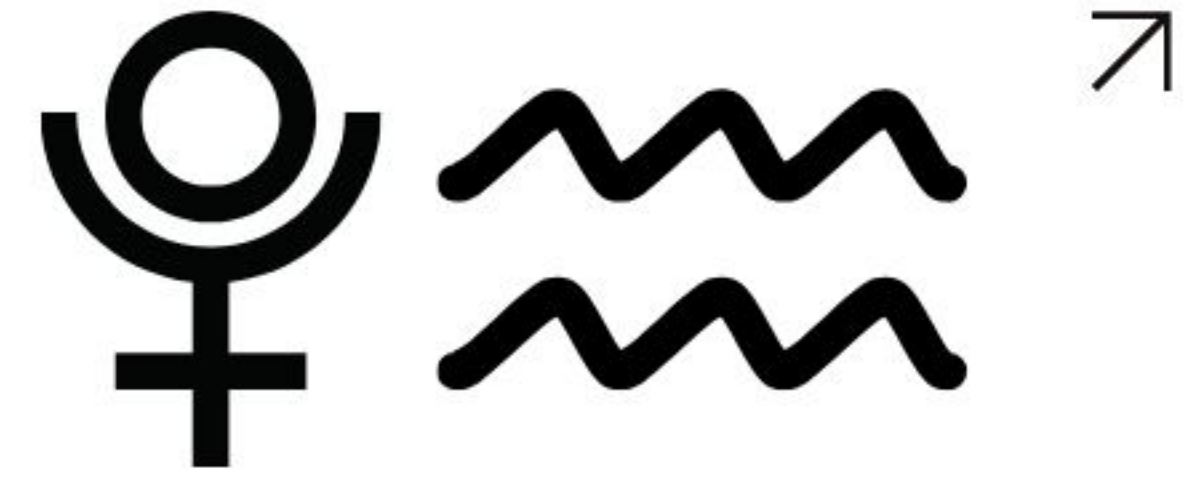

Pain points:

- Nature - climate change
- \$ - technology is expensive, the have & have nots, jobs go to a.i so less income for many. Inflation or a crash since the economy is propped up by money printing (causing inflation, causing a crash), and capitalism needs people to earn and buy things. The cycle may be broken so a shift could eventuate so perhaps a new economic/social system.
- Values shift or a pain point around them.
- Women/reproductive issues & legislation painpoints.

# SCI-FI

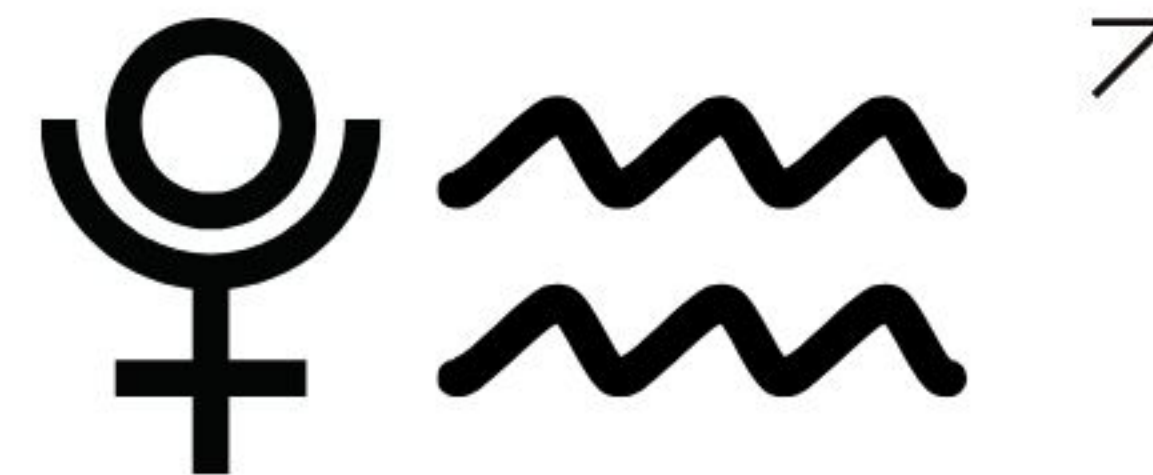

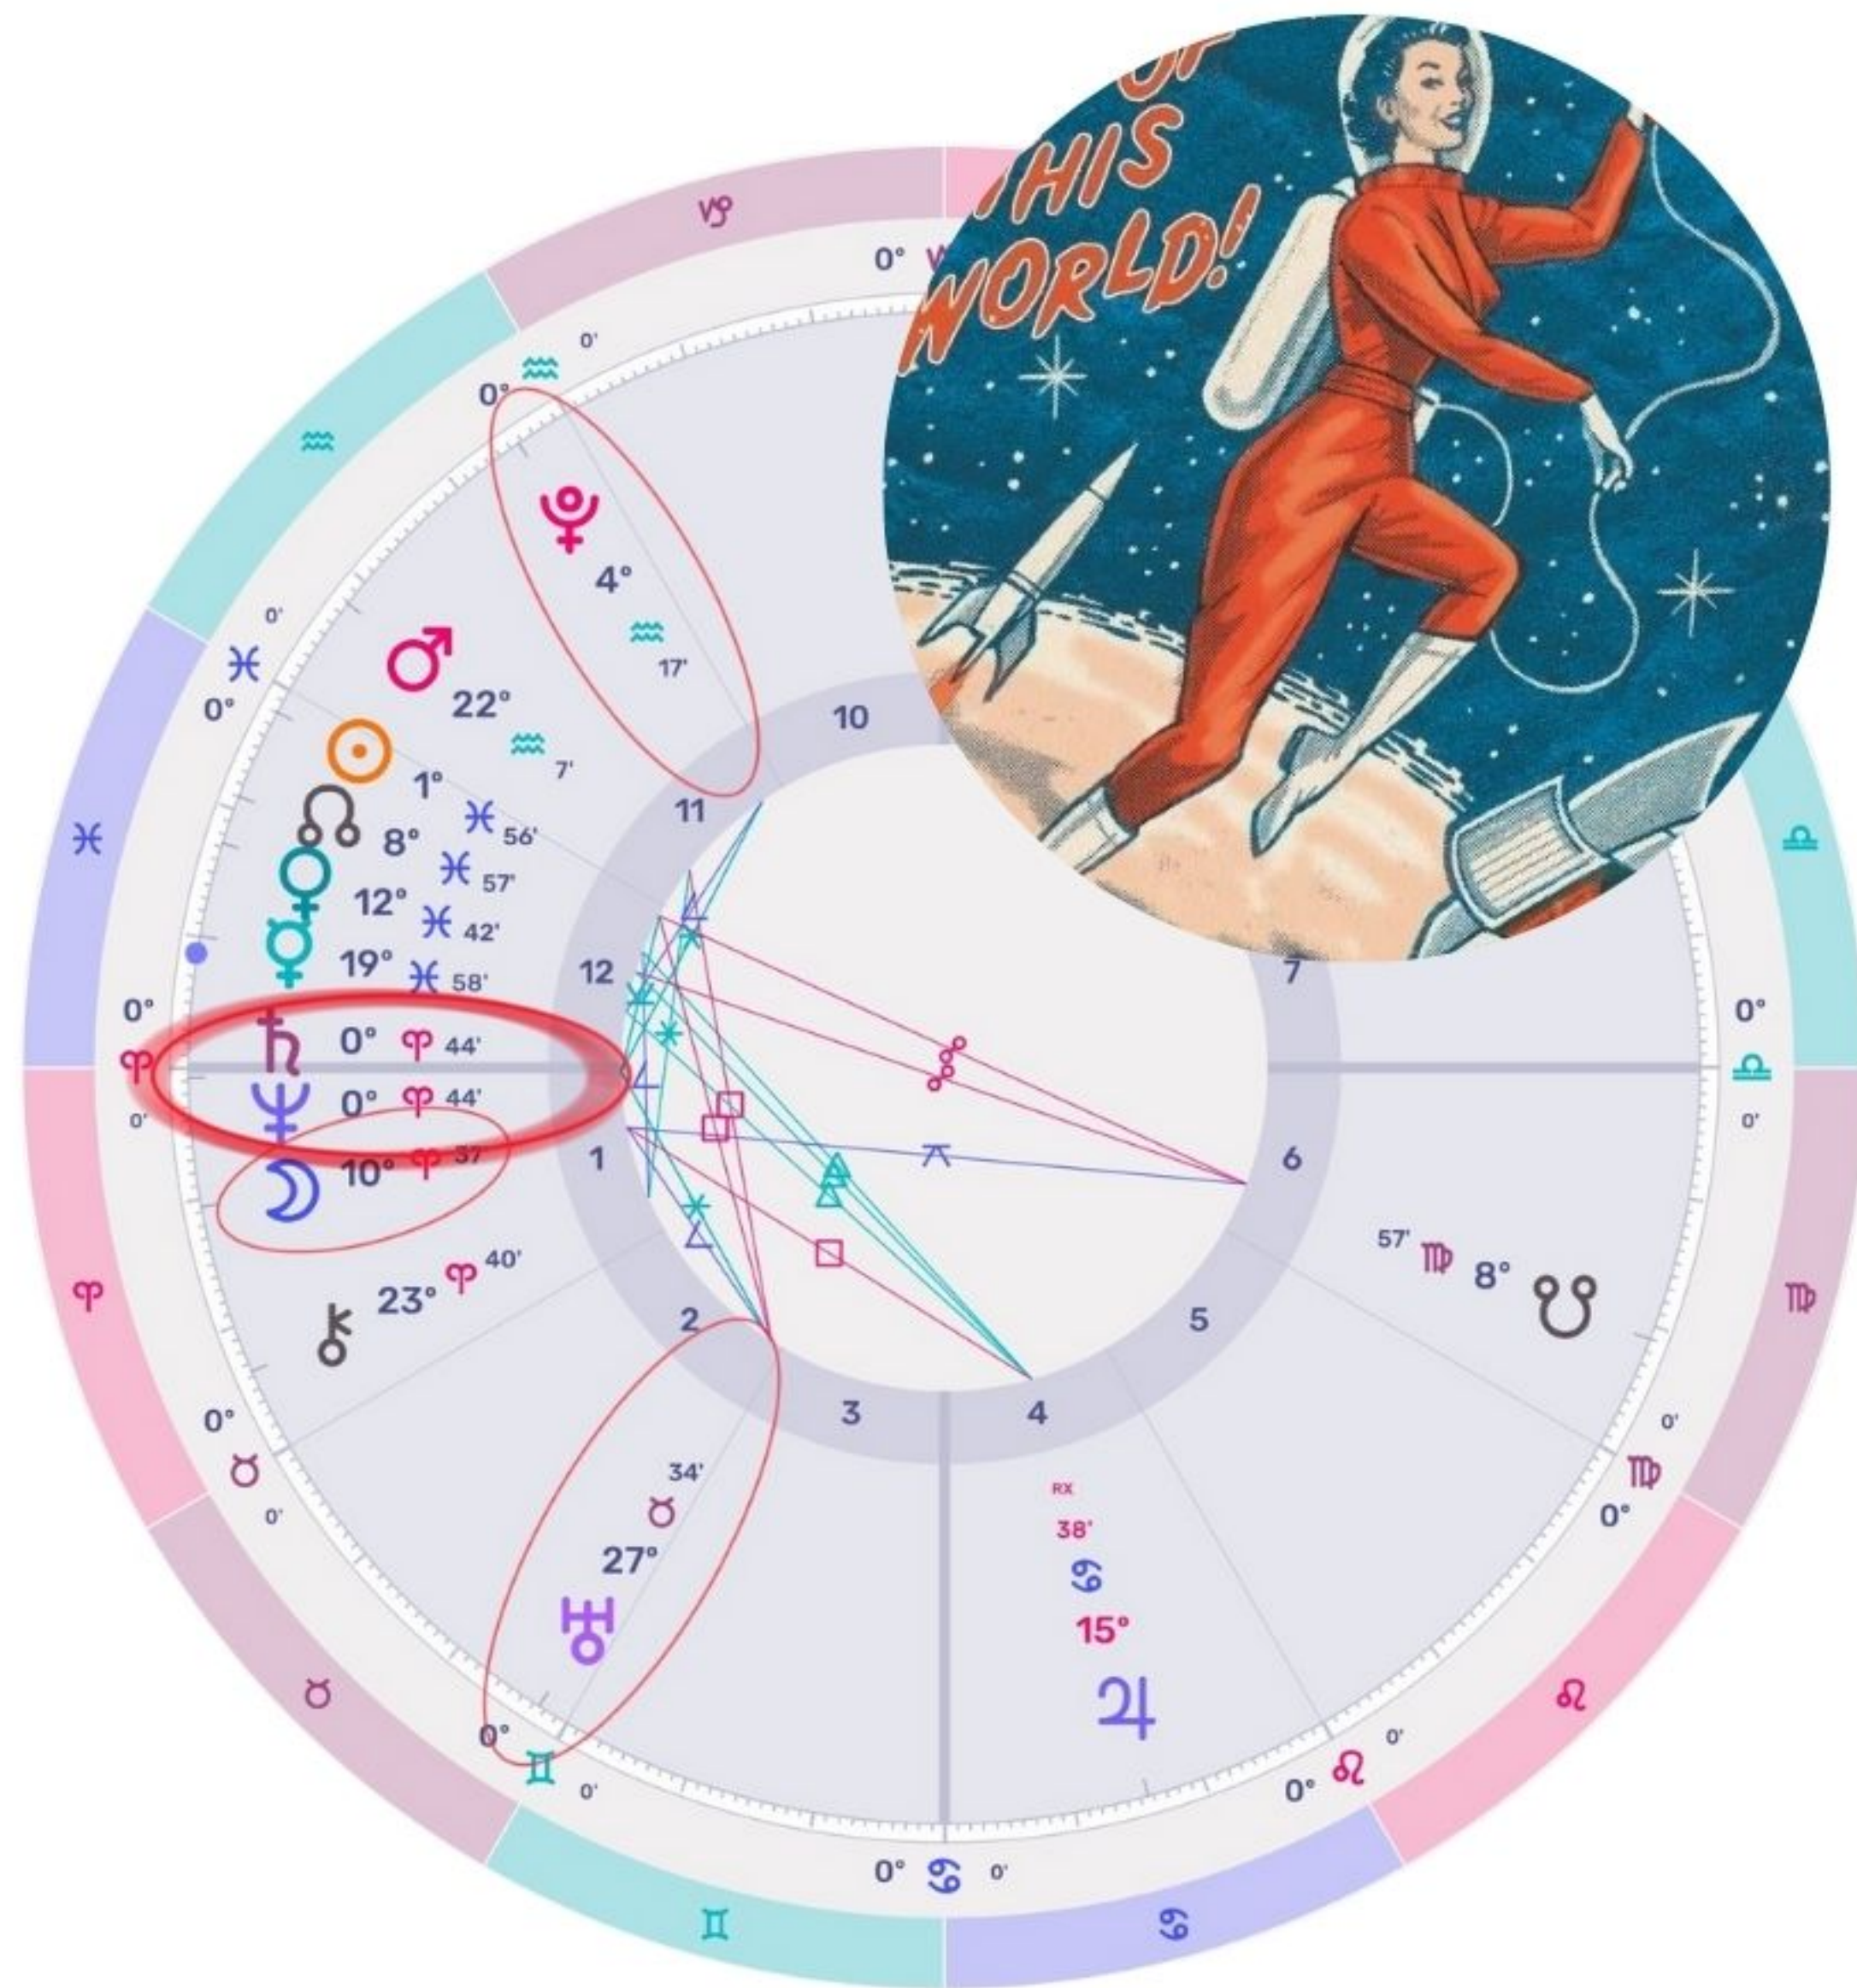

Aliens? (I'll take a rain check!)  
A colony on Mars? (No thanks!)

With Neptune in Aries & Pluto in Aquarius we see a combo of spiritual or fantastical adventure, war and battles, fire power/weaponry combine with alien, space, sci-fi. As well as the ungrounded fear we have of both as displayed when Orson Welles broadcast a dramatic adaptation of H.G Wells, War of the Worlds.

We've already seen a rise in UAP sightings and interest.

The alien is bound to blow our minds and we may question 'God' as we did after Darwins theory of evolution, eventually seeing a shift of faith and power from religious to science/rational thought. A pivotal moment was Darwins theory of evolution.

---

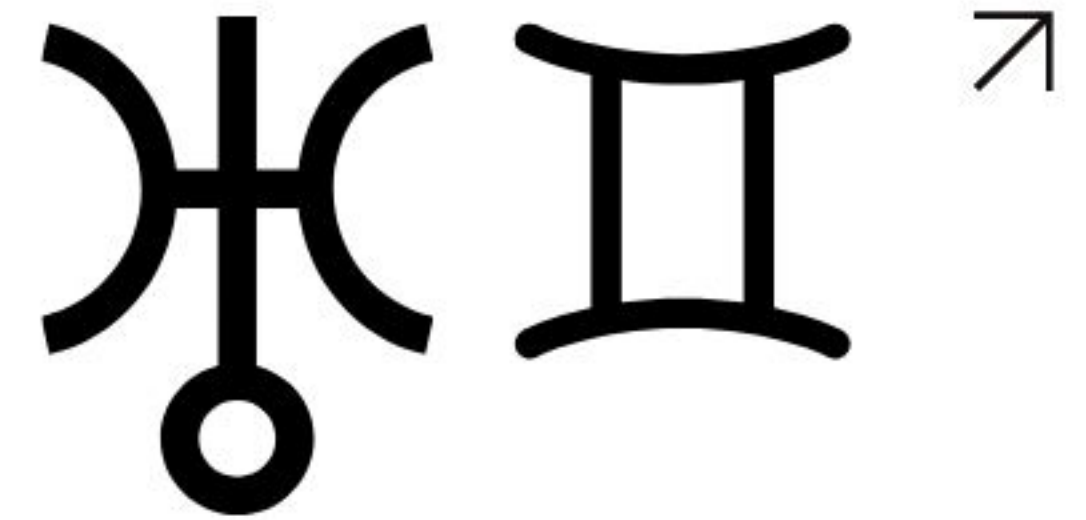

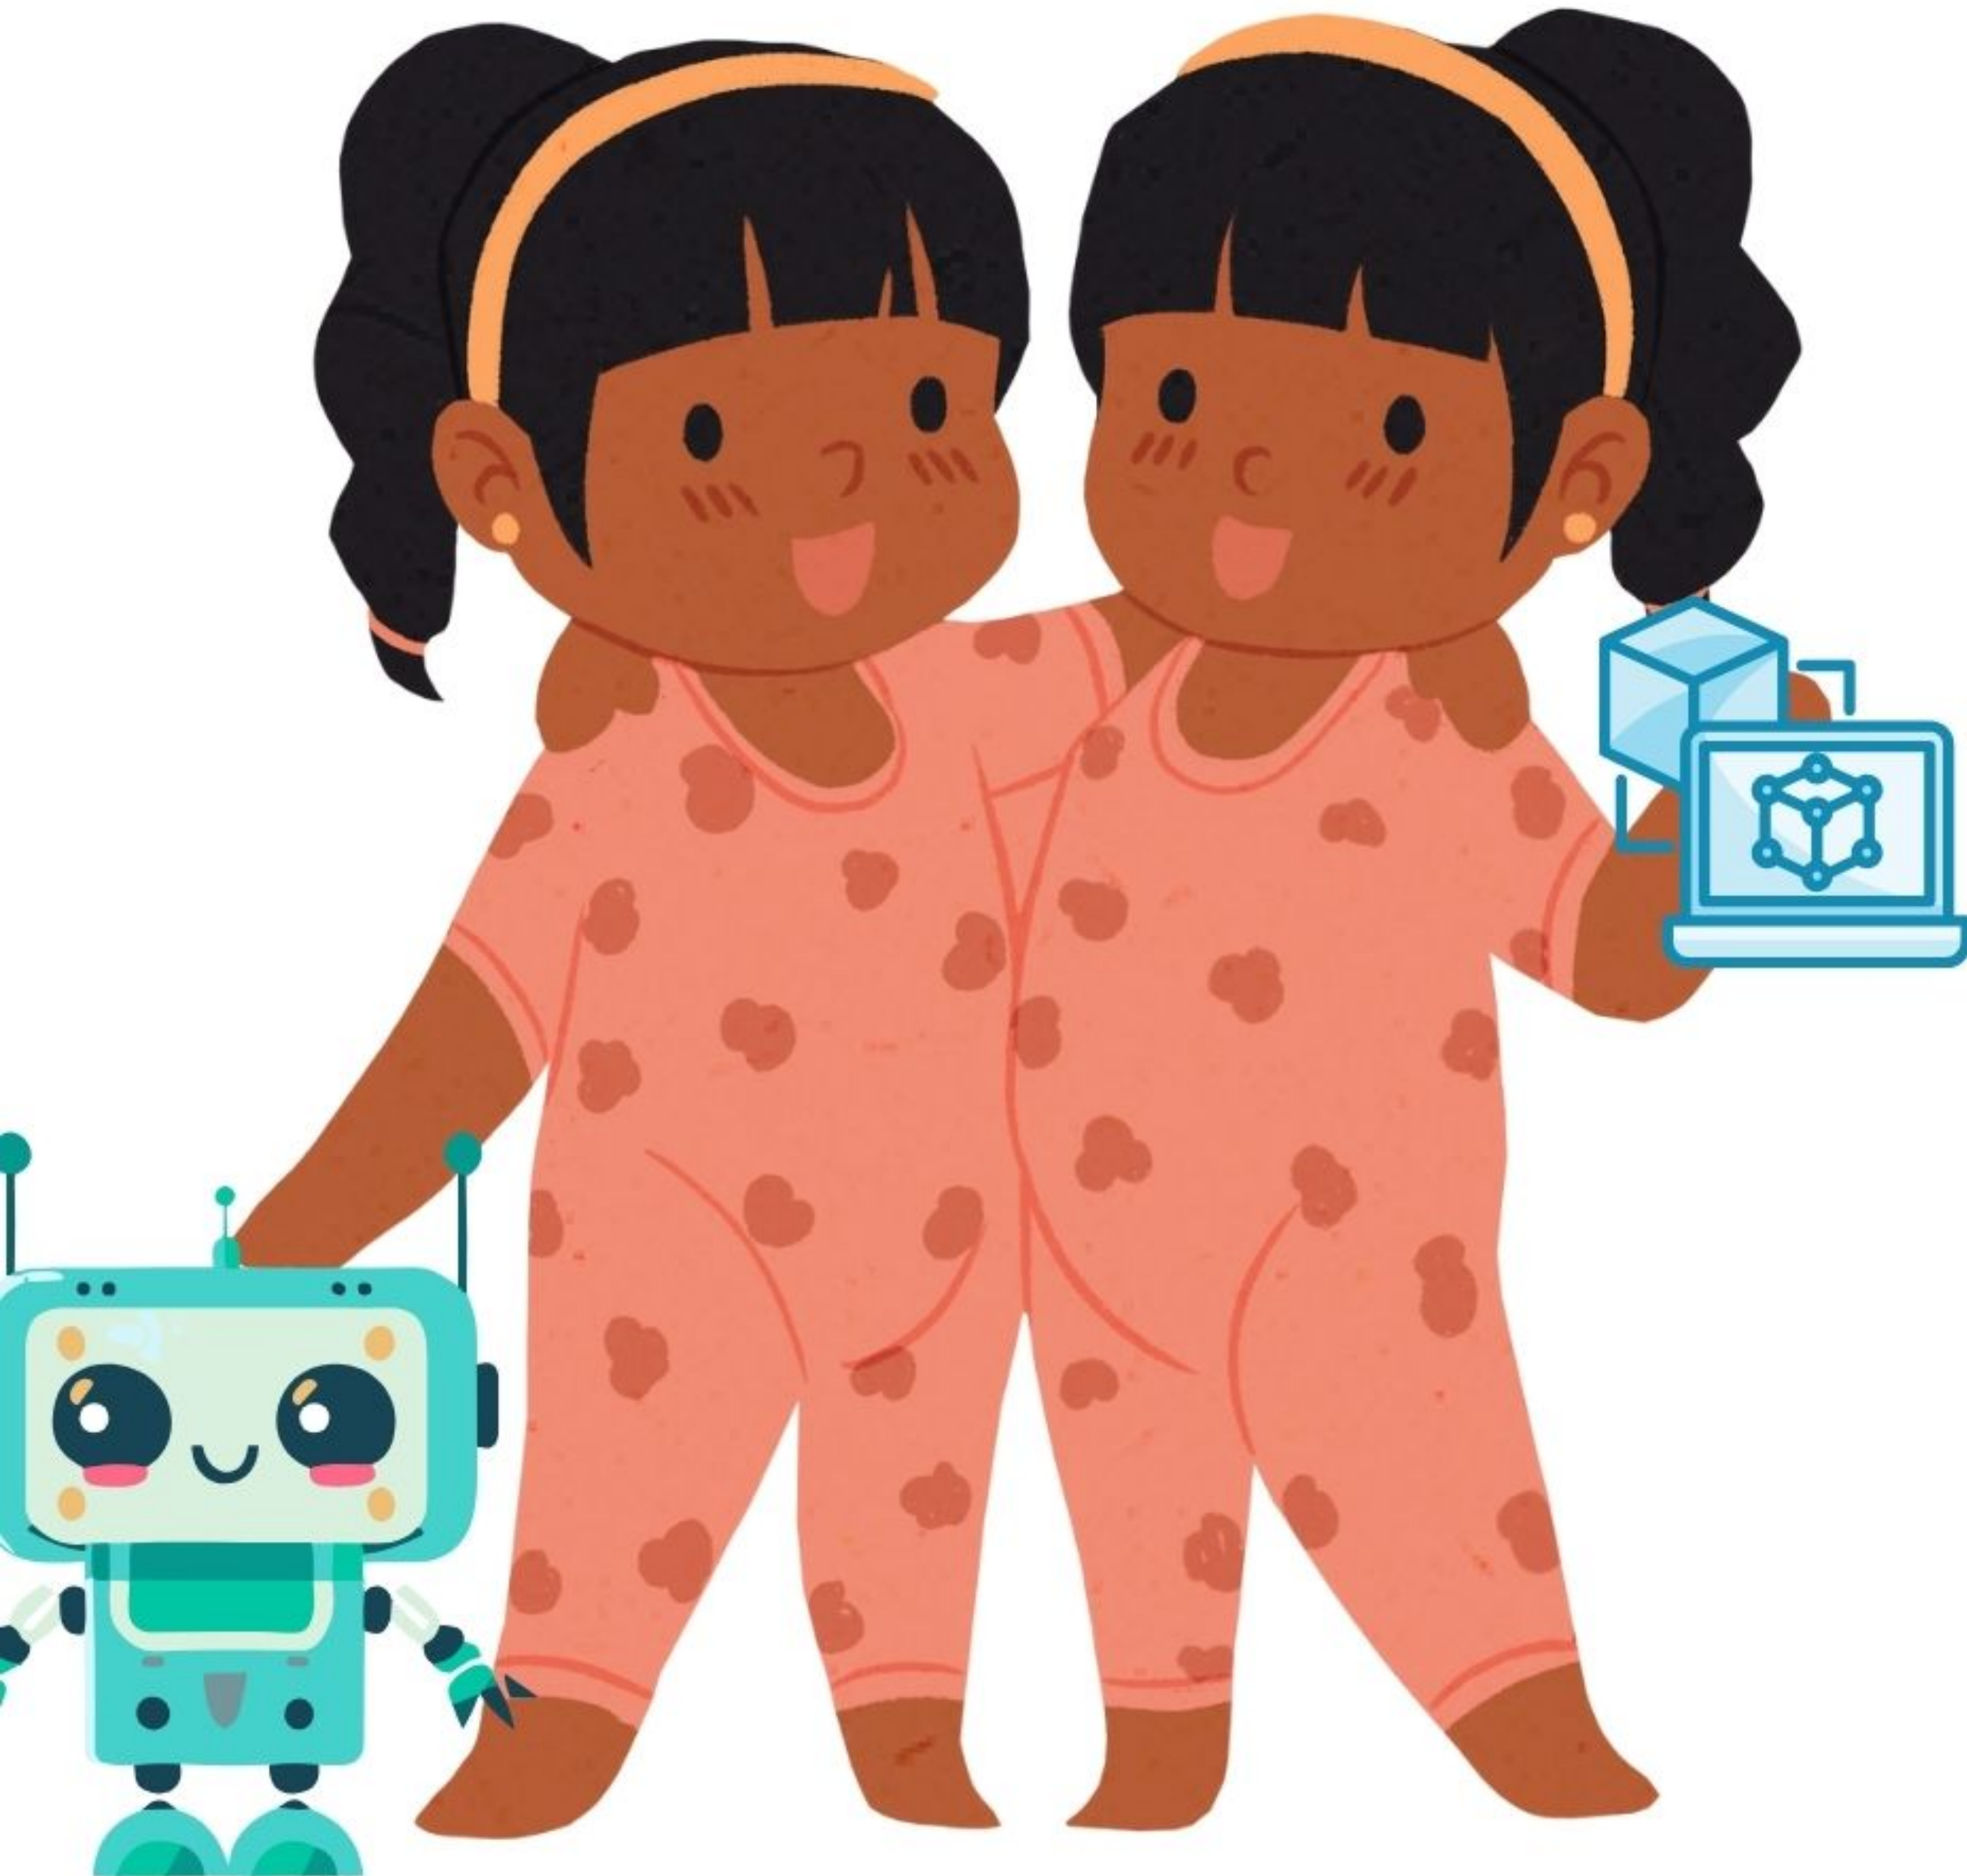

# FLOWING

the Neptune/Pluto sextile is back on over this period and this time incorporating Uranus as Saturn moves in to Conjunct Neptune at 0 Aries.

Pluto and Uranus will hook into a trine while both sextiling Neptune creating an incredibly harmonious, flowing aspect set. Suggesting ease of invention, transformation, creativity and change.

This tapestry is someone different to the last time Pluto was in Aquarius as The American, then French Revolutions (and so many other uprisings) created turmoil on the way to great changes in society.

---

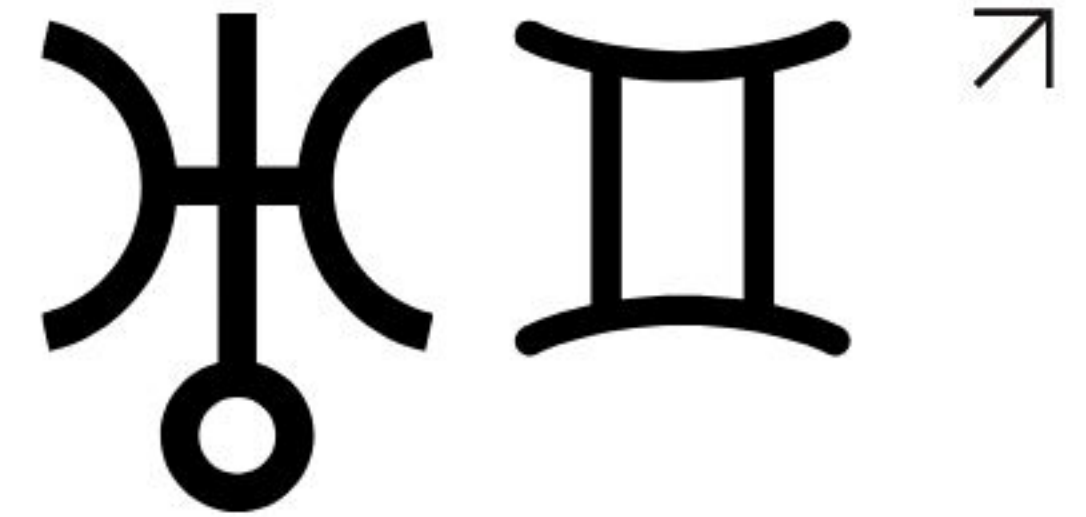

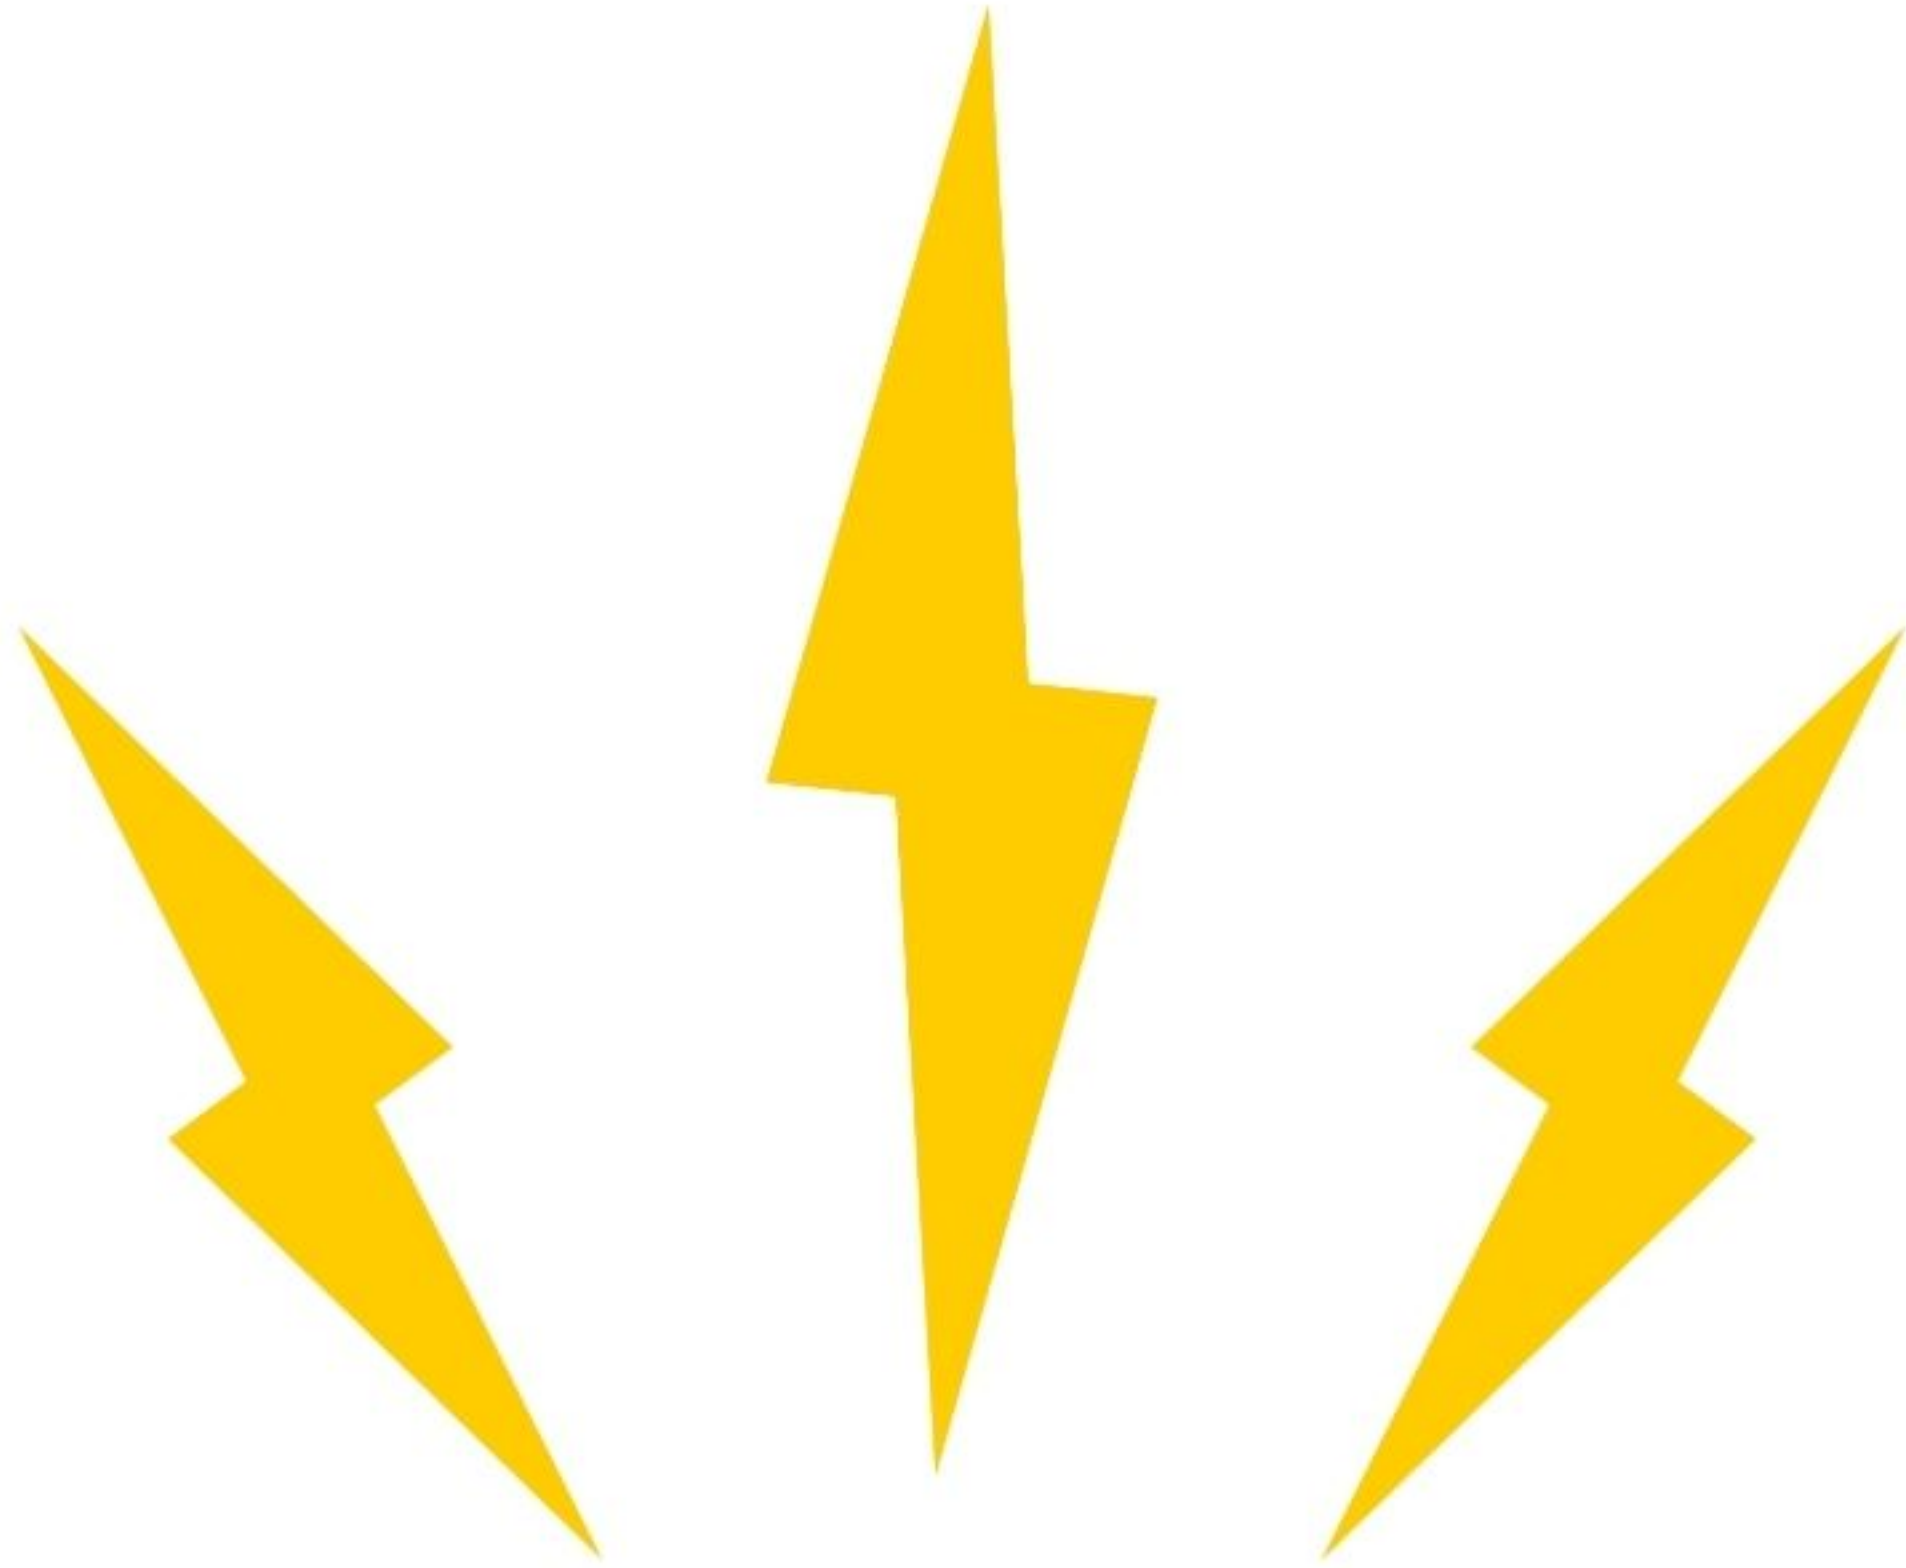

# TWIN

Innovator Uranus in trickster gemini suggests what we've already seen under the more recent Gemini influence of the NN and currently Jupiter, as generative A.I accelerates in development.

Multiplicity — We've seen digital twins for zoom meetings, and already can't tell the difference between a digital copy or the real person in audio or on a screen with actors hiring out their likeness they can do multiple copies/films at the same time. This is sure to continue developing as we insert ourselves within the movie or game as predicted by the Black Mirror series.

The Trickster—what's real and what isn't? We're still the same people that lived in caves while technology is moving fast.

Robotics is bound to develop at a rapid pace in areas of industrial, commercial, military and personal use.

---

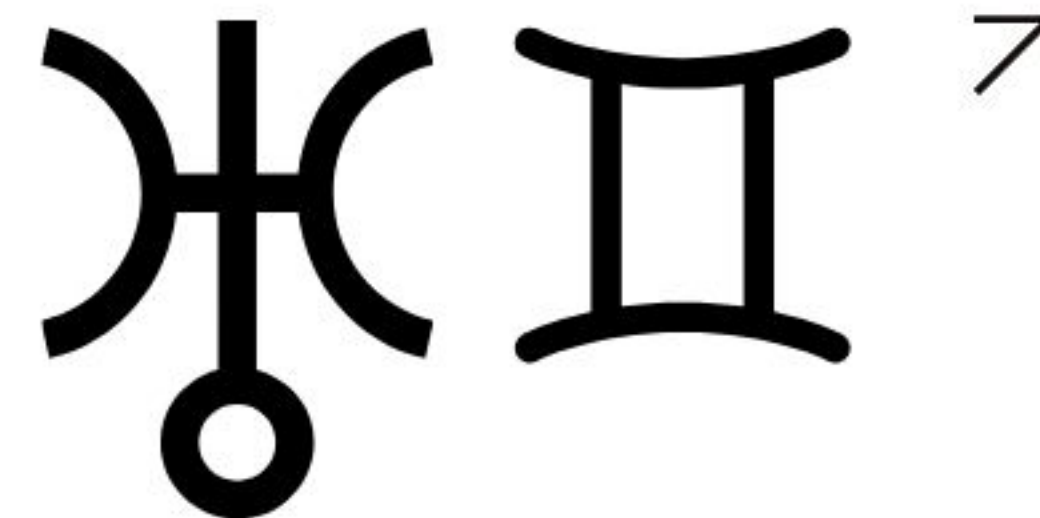

# SHATTERING SPLITTING

The shattering of consensus reality is a term used over the last few years. We've seen:

- Social media silos (lack of full context or a healthy social net)
- Fake news and images at warp speed
- Confusion- what's real and what's fake? (Neptune in Pisces in the mix)

However Neptune and Uranus will be sextile so we hope to see the benefits rather than the even more easy glide into digital manipulation.

The benefit of this destabilisation is that radical new ideas have the space to develop. They may be beneficial or, not, probably a mix of both.

# ROBOTS

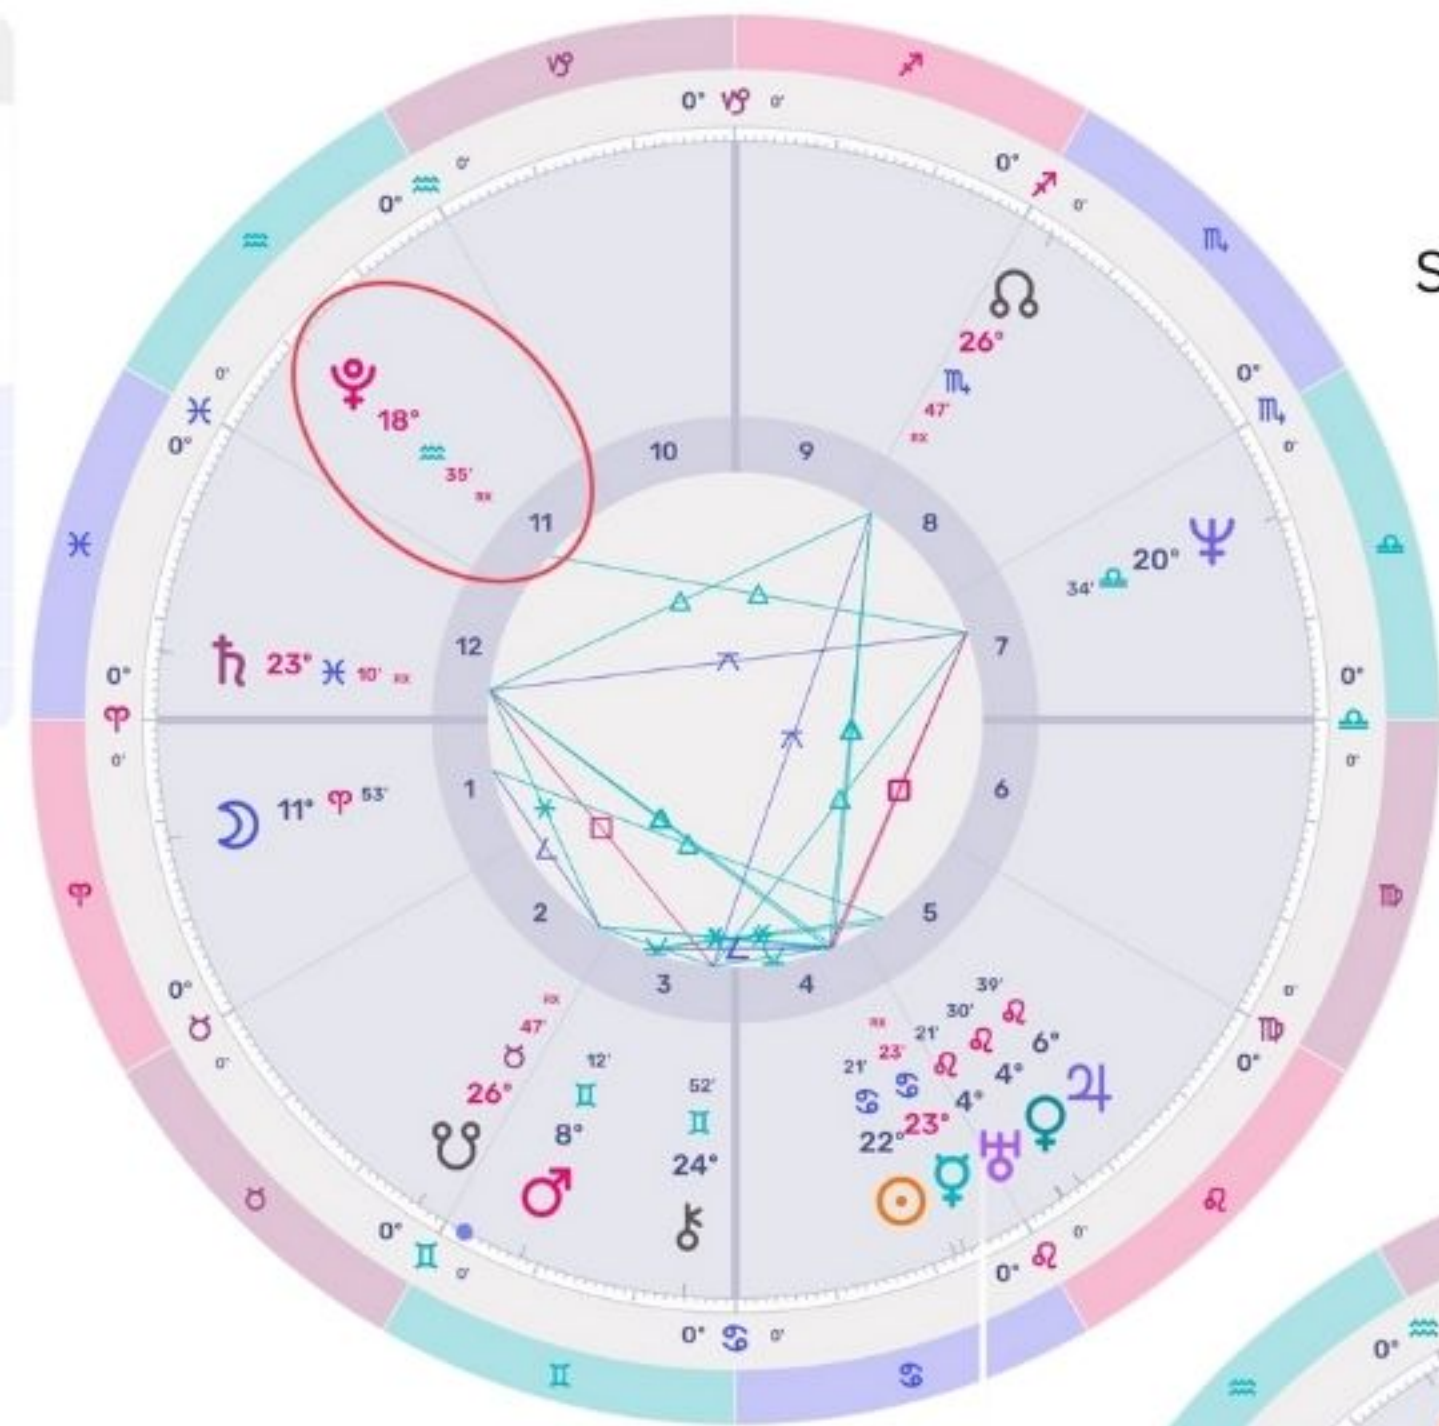

Combined with the Aries placement and Pluto in Aquarius I hope the arms race doesn't outpace us although it already has moved very quickly. The robot dog, drones that can be armed and equipped with surveillance, surveillance rolled out over the last few years, Chinas biometric social credit system. these areas are sure to advance along with the more useful advances for medicine, housing, transport, energy and hopefully environmental solutions or at least commitments.

Then there's that brain chip currently in development...

# REVOLUTION

Uranus was OPPOSITE Pluto over the worst of this period aka The Reign of Terror ie Privileged classes were sent to the Guillotine en masse.

Uranus was in Leo, the sign of the Monarch, nobles and v.i.p's, Saturn was in Aries as it is now, and Aries does rule the head while Saturn rules the finite end.

The Reign of Terror ended when people were finally fatigued over relentless execution's and proving the saying 'live by the sword, die by the sword' the instigator, Robespierre, was himself fed to the Guillotine, marking the end of the Terror.

This aspect set is key to the Plutonian depravity loosed on the people en masse. There are similar threads but the tapestry is different. Some events or spirit may be similar but the rest will be unique to our time. That said, there is much to learn from these periods. As the saying goes, history repeats!

# Gladiator III

YES men in leather skirts beating each other to the death will be back with Gladiator III already in the pipeline.

I hope director Ridley Scott plans the premiere by the stars. I'd advise Jupiter conj Neptune in Aries for the most clout. I'd also advise hiring an Aries or Mars conj Sun actor/actress to embody the lead role.

“Epic tale of the teenage French peasant Joan of Arc who believed God had sent her to lead an army and save her country”

Visions and hears the voice of God, check.

Leads an army, check.

Wins, of course.

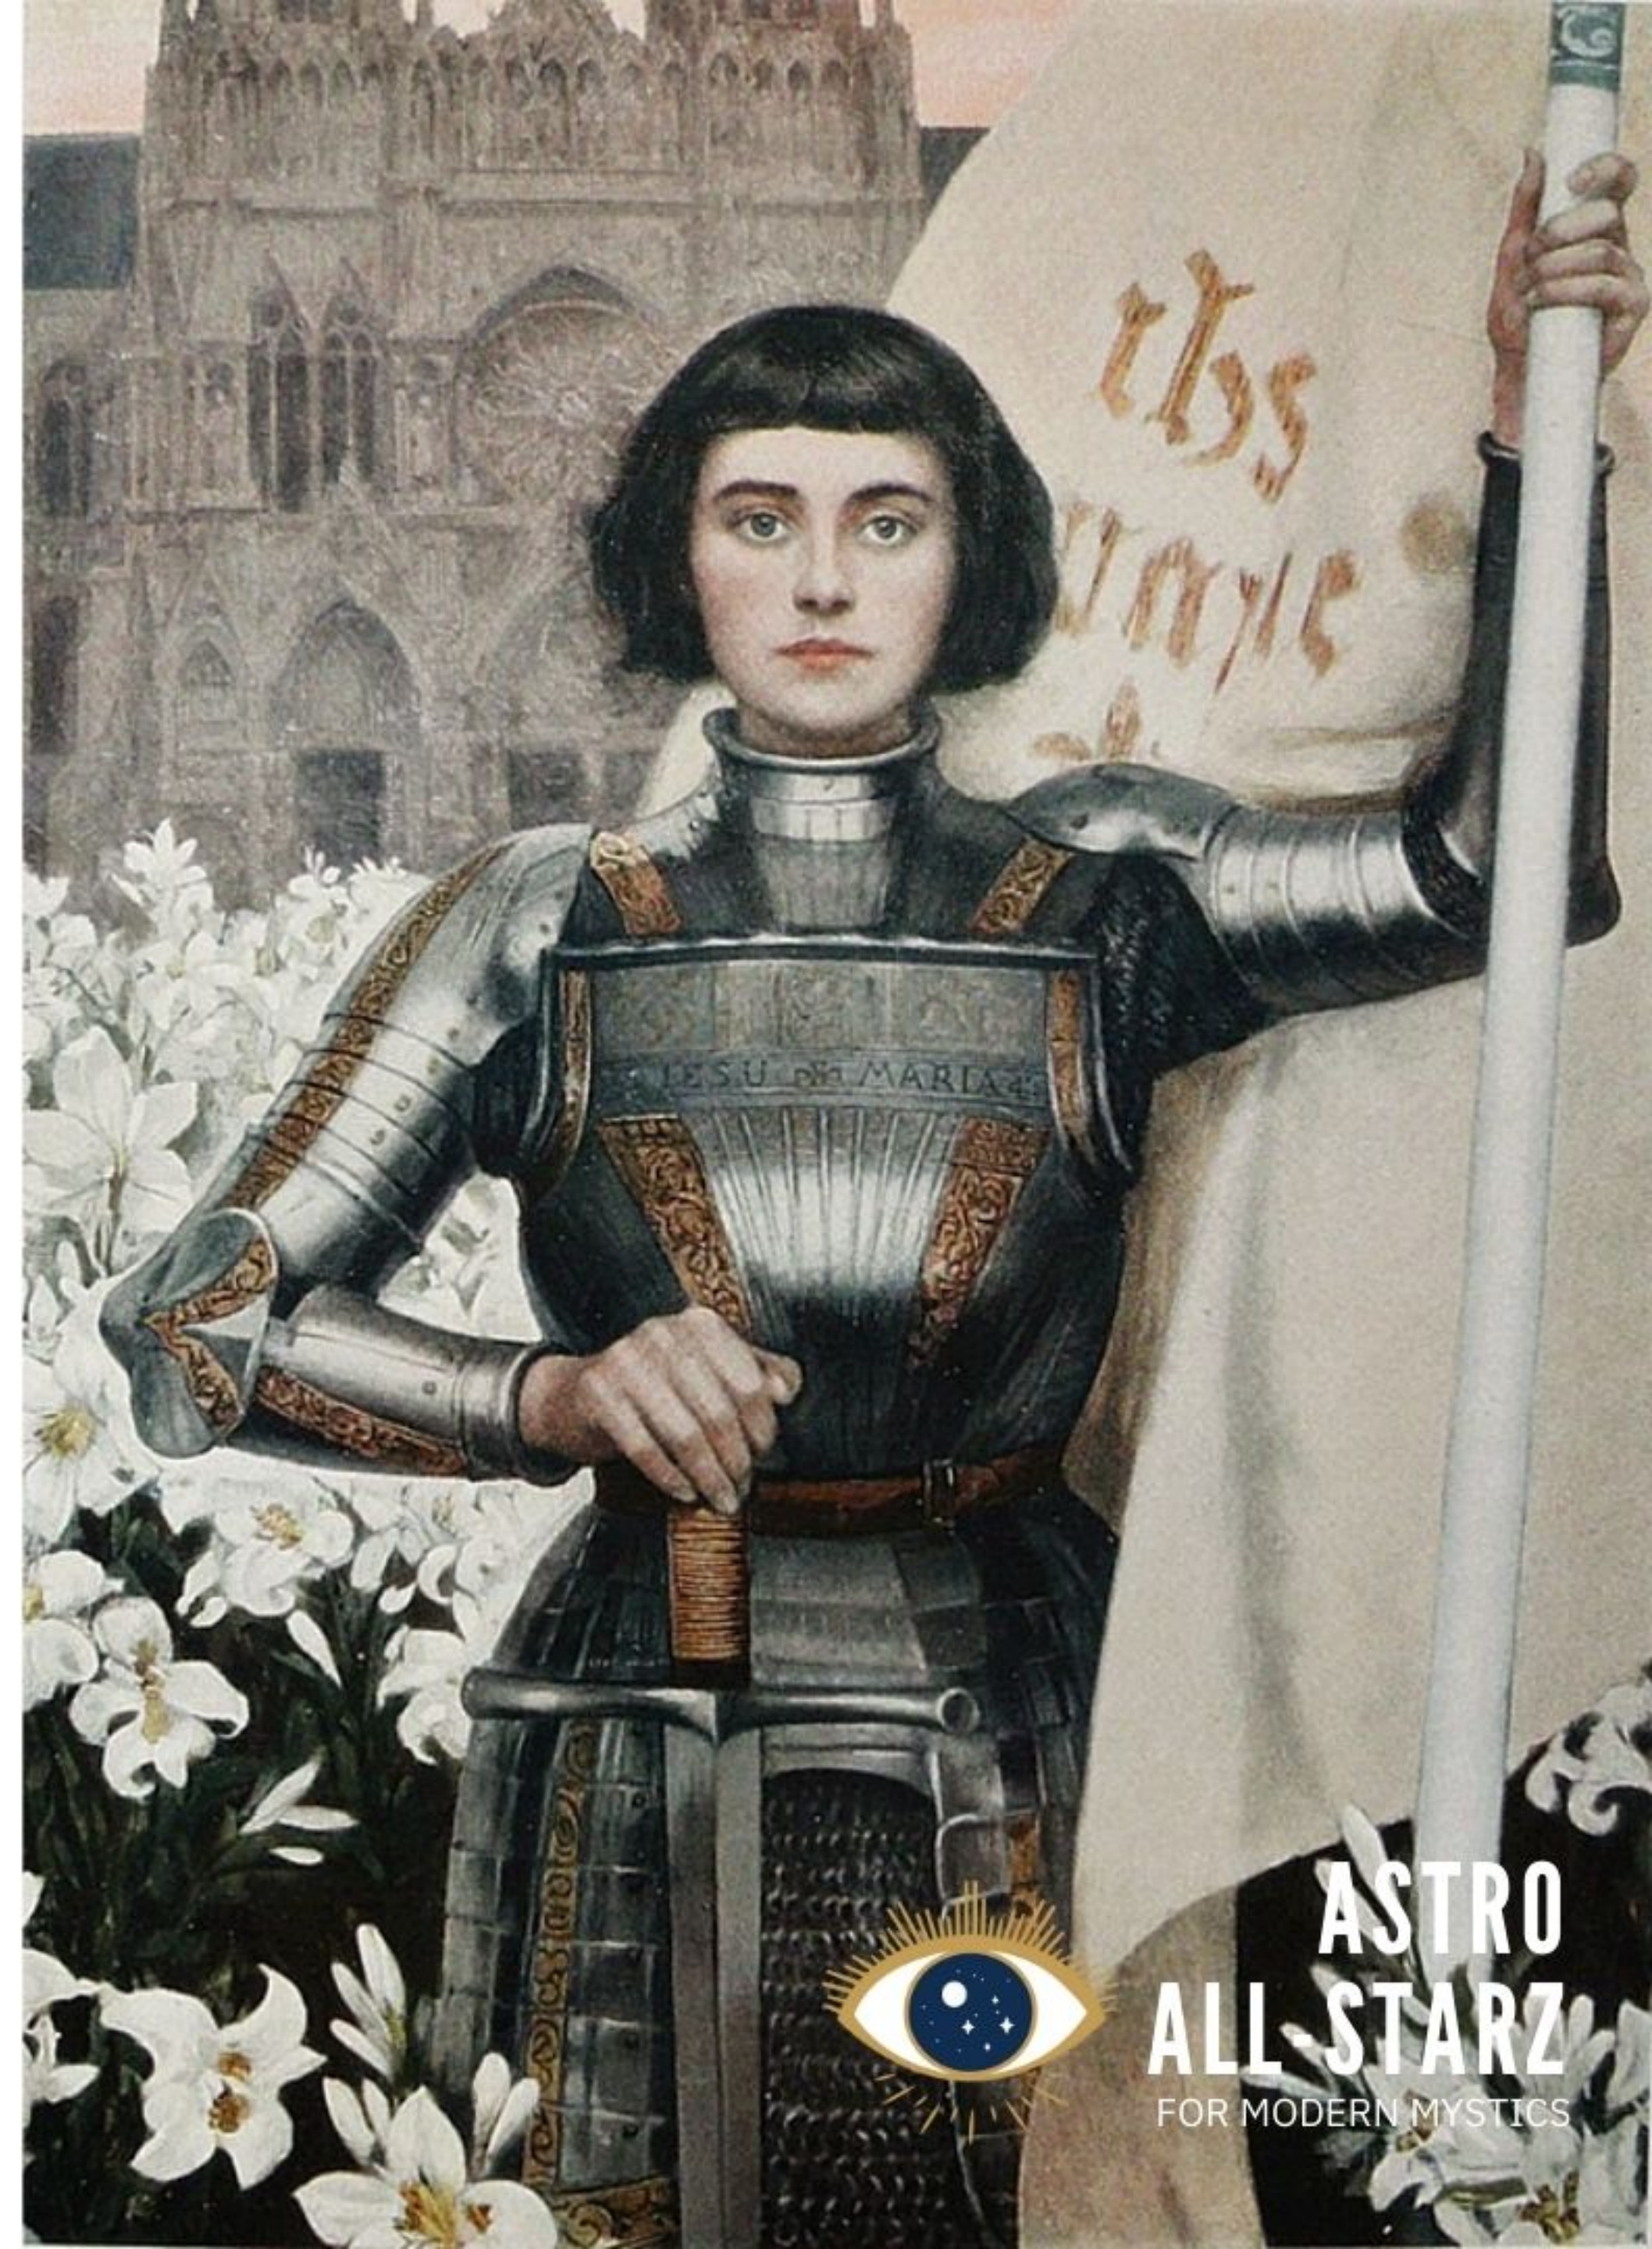

Betrayal, check

Sacrificed by fire, check.

Bazmark Productions is working on this film now which has me wondering as always, is he consulting an astrologer or just tuned in to the coming sign of the times and Aries / Neptune themes of a spiritual warrior? Iconic move.

## A traditional spiritual practice

Fire walking has long been both a spiritual and healing ritual across time and cultures.

Although it's always time to find your edge with a worthy challenge, will fire walking gain interest under the transit of Neptune in Aries?

Identifying as ‘Tony Robbins, Fire Walker’, he has Moon in Aries so has long been an advocate for finding the edge.

A staple of Fortune 500 corporate bonding events I figure these practices will continue to find new participants. With Neptune in Aries perhaps the spiritual component will be a draw card.

This practice gained traction in August 1977 as Neptune was also in a fire sign (Sagittarius) via an article and how to in the Scientific American publication.

Robbin’s states that it ignites courage, shows you can do what you had thought was impossible (thereby dispelling self imposed illusion)

“Feelings such as Time, standing still, floating in the air, flying, freedom, and expanding sensory abilities are some which are associated with experiences of extreme sports. Not only is it a trans-state for some but a way of escaping from everyday life. Some associate independence, directing life how they want it Which ultimately provides them peace.

# LET'S GET MARSY NOT TESTERICAL

---

As women have integrated the archetype Mars/Aries represents, and made headway into social, economic, political, educational and professional lanes, that has been perceived as transgressing a prescribed lane they 'should' stay in.

Over the Aries dominated period we've seen substantial gains met with substantial testicular backlash.

As we progress further down the Aries road of redemption with Neptune through Aries, the shadow side of our society, the way it's constructed, maintained, and perpetuates male dominance over women and who has the right to the Mars/Aries archetypes of power, aggression and assertion is something to be aware of. One of those ways on the rise is through religion.

# TRANSCENDING TOXIC MASCULINITY

the phrase 'toxic masculinity' entered mainstream awareness over the last several years as planets progressed through Pisces & Aries.

With the rise and rise of male violence against women and children, influencers like self confessed misogynist Andrew Tate using social media to advocate for male supremacy (often white & comp het) through violence, domination & disrespect of women has already gained a lot of traction.

This is a pitfall to be aware of and transcend for boys, men, the legal, political, media and educational system & society as a whole.

**"THERE ARE 4 FACTORS THAT CONSISTENTLY PREDICT OR 'DRIVE' VIOLENCE AGAINST WOMEN.**

**1 IS: RIGID GENDER STEREOTYPING AND DOMINANT FORMS OF MASCULINITY**

**GENDER STEREOTYPING IS WHEN WE PROMOTE THE IDEA THAT THERE ARE NATURAL OR INNATE WAYS FOR WOMEN AND MEN TO BEHAVE – SUCH AS THAT MEN ARE NATURALLY AGGRESSIVE AND DOMINANT, AND WOMEN ARE NATURALLY PASSIVE AND SUBMISSIVE.**

**THIS DRIVES VIOLENCE AGAINST WOMEN BECAUSE IT CAN RESULT IN PUNISHMENT FOR WOMEN, MEN AND PEOPLE OF OTHER GENDERS WHEN THEY DON'T CONFORM TO EXPECTED ROLES. IT ALSO CONTRIBUTES TO THE IDEA THAT MEN SHOULD HAVE MORE POWER THAN WOMEN AND OTHERS IN PUBLIC, AND IN THEIR RELATIONSHIPS.**

# MYTHOPOETIC MENS MOVEMENT

---

Alternative paradigms:

“The mythopoetic men's movement emerged in the late 20th century, encompassing a diverse range of ideas, practices, and beliefs centered on redefining masculinity. This movement sought to address the evolving roles of men in modern society by drawing from ancient myths, Jungian psychology, and rituals aimed at personal growth and healing.

The roots of the mythopoetic men's movement can be traced back to the 1970s and 1980s when men, particularly in the United States, began to question traditional notions of masculinity. Influenced by feminist critiques of patriarchy and societal expectations placed on men, a group of thinkers, writers, and activists sought to explore alternative models of masculinity that embraced emotional depth, vulnerability, and a more holistic understanding of what it means to be a man.

Central to the mythopoetic men's movement was the idea of men gathering in retreats, workshops, and discussion groups. These gatherings provided a space for men to explore their emotions, confront societal conditioning, and engage in rituals and activities aimed at fostering personal growth and introspection. Drumming circles, storytelling, wilderness quests, and other rituals borrowed from diverse cultural traditions became integral components of these gatherings.

# Warfare in the digital age

Technological advancement has changed the game for countries with advanced war tech ie nuclear missiles, and created a stalemate.

However, now part of warfare is through the digital medium, which has few international boundaries. I think we all know this is going exponential once we turn the corner with generative ai, as Uranus shifts into Gemini. We've already seen the uptick with Jupiter expanding Geminis penchant for trickery and while Neptune in Pisces further obscures fact from fiction.

United they stand, divided they fall. I've read that the four horsemen of the apocalypse have a 5th, 'misinformation'. However misinformation is nothing new. The dominant narrative simply has more competition now. We're finding it hard to all be in collusion with the one illusion and as human ego would have it, we tend to fight for our own world view. As mentioned earlier, we're experiencing the shattering of consensus reality. That can be further weaponised as part of warfare in the digital age.

Then we have robot dogs with a vision of humanoid robots that can be armed, drones that can be armed. In poorer countries it's the old fashioned way for now.
